Dear Mary;

Enclosed you will find a copy of an address that the President of the University of California gave at the last LES meeting. It is a good address and might well be of interest to the SUPA membership. Will you please consider making copies available with some future mailing to the membership so that we can officially use our mailings.

As an alternative to the above you will note from Roger Ditzel's covering letter if you have mailing labels the University of California will send out the talk to SUPA members. That probably would be a better and quicker method if the mailing labels are available.

Very truly yours,

Howard W. Bremer  
President
