—NOW—

From the Office of Technology Assessment and Forecast (OTAF)—PATENT AND TRADEMARK OFFICE. This year's TWO Reports from the Nation's most authoritative source of patent information and data covering the entire spectrum of developing technology.

TECHNOLOGY ASSESSMENT AND FORECAST

SEVENTH AND EIGHTH REPORTS

The most sought-after publications for facts and figures on the role of Patents in the Development of Technology. In over 140 graphs, tables, and charts and over 300 pages, these two reports present a composite, detailed picture of the PATENT and its importance in an ever increasingly Technology oriented world.

Inside the EIGHTH REPORT are presented—

International Patenting Patterns—Part II
U.S. vs. Foreign-International Patenting
Domestic and International U.S. Patenting

- By Origin
- By Origin and Discipline
- By SIC Product Field and Origin

Specific Technologies with Highest Level of International Patenting

Patent Balance U.S. vs. 23 Selected Countries

The Uniqueness of Patents As A Technological Resource

Geophysical Exploration For Hydrocarbons (Oil Gas Coal)

Electrical-Magnetic Prospecting
Nuclear Geophysical Prospecting
Gravitational Field Measurement
Seismic Prospecting

- Offshore Prospecting
- Signal Prospecting
- Recorders and Displays
- Borehole Logging
- Seismic Wave Sources
- Vibrators
- Air Guns
- Solid Explosives

Inside the SEVENTH REPORT are presented—

Patents and Trademarks—An Historical Perspective
International Patenting Patterns—Part I
Reports on 16 Active Technological Areas

- Special "Mini" Reports
- Patent Examiner Reports

Forecasting Patent Activity By Use of Pending Patent Application Data

Computer Memory Components

- Magnetic Core Memories
- Magneto Optical Memories
- Magnetic Bubble Memories
- Cathode Ray Tube Memories and more

Antipollution Patenting

Also in the SEVENTH REPORT are patent statistics from 1790 to 1976, including patenting by State; by residents of selected foreign countries, and registrations of trademarks. This valuable information was collected from the Patent & Trademark Office, and represents a unique compilation of data.

What is OTAF? The Office of Technology Assessment and Forecast (OTAF) is part of the U.S. Patent and Trademark Office. Its job is to stimulate and enhance the use and useability of the more than 22 million technological documents which make up the categorized patent file. OTAF assembles, analyzes and makes available, in a variety of formats, meaningful information about the Patent file, and publishes a gen-

eral report series (of which the Seventh & Eighth Reports are a part). Additionally OTAF prepares, on a cost reimbursable basis, special reports tailored to individual needs. Information concerning OTAF's special report services may be obtained from: Office of Technology Assessment and Forecast, Patent and Trademark Office, Washington, D.C. 20231, (703) 557-3050.
