## REVISION OF TITLE 35, UNITED STATES CODE

Mr. BRYSON, from the Committee on the Judiciary, submitted the following

### REPORT

[To accompany H. R. 7794]

The Committee on the Judiciary submits the following report in explanation of the bill (H. R. 7794) to revise, codify, and enact into law title 35 of the United States Code entitled "Patents," and recommends that the bill do pass. The present bill has been substituted for an earlier bill (H. R. 3760), on which hearings were held, and contains changes recommended by the subcommittee.

### INTRODUCTION

As its title indicates, the purpose of the bill is to revise and codify the laws relating to patents and enact into law title 35 of the United States Code entitled "Patents."

This bill is part of the comprehensive program of revising and enacting into law all the titles of the United States Code. Up to the present time nine out of the 50 titles of the code have been revised and enacted into law and consideration or preparation of bills relating to a number of additional titles is in process.

For many years there had been considerable agitation for a complete restatement and codification of all the laws of the United States, inasmuch as the only such codification—the Revised Statutes of 1874—had become generally outmoded on all subjects.

In 1926, in response to widespread recognition of the need therefor, and after nearly 7 years' effort on the part of the Committee on the Revision of the Laws, the Congress adopted the United States Code, which was a codification of the existing general and permanent laws of the United States arranged in 50 titles according to subject matter, and which was declared to be prima facie evidence of the law.

Because of the size of that code Congress decided that it should undergo a testing period before it was enacted into positive law.

The code has now been subjected to such a testing period lasting more than 25 years, and the committee's program of enacting the titles into law has been in progress for several years.

#### PRIOR REVISION OF PATENT LAWS

The present patent laws consist of about 60 sections of the Revised Statutes of 1874, together with a large number of acts of Congress passed since that date revising various sections of the Revised Statutes or making new enactments not related to any section of the Revised Statutes.

Since the sections of the Revised Statutes relating to patents were merely a compilation of the act of July 8, 1870, 16 Stat. 198, our present patent law is essentially the act of 1870 with subsequent amendatory and supplemental enactments.

The last general revision of the patent laws was the act of July 8, 1870, which was enacted as part of a program to revise and consolidate all the laws of the United States then under way. In 1866 Congress passed a law providing for a commission to revise and consolidate the statutes of the United States. The Commission which was appointed to perform this work prepared a preliminary draft of the part relating to patents and copyrights in 1868, and a second preliminary draft in 1869. The following year a draft of the statutes relating to patents and copyrights as revised, simplified, arranged, and consolidated by the Commission was reported to Congress, and at the same time referred to the Committee on Patents; a bill was introduced by the chairman a few days later.

The object of the Commission on revision of the laws was only to revise, arrange, and consolidate the statutes in force and the draft reported from the Commission presumably was for this purpose only.

The probable reason for referring the matter to the Committee on Patents was that during this same period there had been suggestions for amending the patent laws in substance and it appears that the Committee on Patents studied the draft of the Commission and changed it by various amendments affecting matters of substance. The bill thus introduced was enacted on July 8, 1870, 16 Stat. 198, and included the subjects of copyrights and trade-marks as well as patents.

When the Revised Statutes, as in force on December 1, 1873, were enacted on June 22, 1874, the sections of the act of 1870 were distributed in various parts of the Revised Statutes.

#### HISTORY OF PRESENT BILL

By a fortunate distribution of committee functions, the Committee on the Judiciary, and the same subcommittee of this committee, is charged both with the revision of the laws and with the consideration of bills relating to patents.

About three years ago it was suggested that, since the same subcommittee of the Committee on the Judiciary has jurisdiction over both the revision of the laws and the subject of patents, we should undertake the preparation of a bill to revise these laws.

The work was initiated by the preparation of a preliminary draft of a "Proposed Revision and Amendment of the Patent Laws," which was printed and distributed in February 1950.

The preliminary draft, in addition to simple codification, included a collection of a large number of proposed changes in the law which had come to the attention of the Congress during the past quarter-century, in the form of bills or otherwise. The preliminary draft was widely distributed with a request for criticisms and suggestions. As a result of the comments received, it was decided not to include most of the proposed changes in a bill but to defer them for later consideration, and to limit the bill to the main purpose of codification and enactment of title 35 into law, with only some minor procedural and other changes deemed substantially noncontroversial and desirable.

Numerous suggestions had been received from the Patent Bar and the public. After consideration of the suggestions and criticisms and other comments which had been received, a bill (H. R. 9133) was prepared and introduced in the Eighty-first Congress on July 17, 1950. This bill was also widely distributed and again comments were received from the Patent Bar and others. As a result, the bill was reintroduced in revised form in the Eighty-second Congress as H. R. 3760.

Hearings were held on H. R. 3760 and as a result of the hearings and material received by the committee the bill was revised and introduced as the present bill.

In the preparation of the various drafts leading to the present bill, all acts of Congress relating to or mentioning patents which have been enacted since 1874 were collected and studied, and those acts which had not been specifically repealed were used in preparing the drafts.

The changes introduced in the bill were obtained mainly from a study of all the bills relating to patents which had been introduced in Congress since 1925, the reports of various committees making studies of the patent laws, reports and recommendations of private groups and individuals, and other miscellaneous sources.

The actual work of preparing the preliminary drafts and the bill was directed and supervised by the committee's law revision counsel, Charles J. Zinn, and its counsel having jurisdiction over patent matters, L. James Harris.

For a number of years the committee has pursued a policy of calling on official and unofficial experts in the subject-matter of the proposed revision to assist it, and it has been most fortunate in receiving the able and helpful assistance of various persons such as Mr. P. J. Federico of the Patent Office, Capt. George N. Robillard, United States Navy, patent counsel of the Department of Defense, Mr. T. Hayward Brown of the Department of Justice, and many others. The Coordinating Committee or the Patent Bar, which was organized under the auspices of the National Council of Patent Law Associations and included representatives of industry as well, has rendered invaluable service to the committee in the preparation and refinement of the bill. Messrs. Henry R. Ashton, Giles S. Rich and Paul A. Rose, particularly, devoted themselves to this work.

#### EARLY PATENT LAWS

As has already been stated, the present patent laws consist of the Patent Act of 1870 with subsequent enactments adding to or changing various sections of that original act. The first patent law was enacted

in the second session of the First Congress in 1790. When the first Congress met, one of its very first items of business was the consideration of patents and copyrights, and the first patent bill was H. R. No. 10 of the First Congress.

The patent laws are enacted by Congress in accordance with the power granted by article I, section 8, of the Constitution which provides that:

The Congress shall have the power . . . to promote the progress of science and useful arts, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries.

This provision was unanimously adopted by the Constitutional Convention following suggestions for Federal jurisdiction over both patents and copyrights which had been made in the Convention by James Madison of Virginia and Charles Pinckney of South Carolina. Each proposed separate provisions relating to patents and to copyrights which were merged by the Drafting Committee of the Convention into the general statement we now have, which was adopted without any dissenting voice.

The background, the balanced construction, and the usage current then and later, indicate that the constitutional provision is really two provisions merged into one. The purpose of the first provision is to promote the progress of science by securing for limited times to authors the exclusive right to their writings, the word "science" in this connection having the meaning of knowledge in general, which is one of its meanings today. The other provision is that Congress has the power to promote the progress of useful arts by securing for limited times to inventors the exclusive right to their discoveries. The first patent law and all patent laws up to a much later period were entitled "Acts to promote the progress of useful arts."

The first patent law, which was enacted on April 10, 1790, vested the jurisdiction to issue patents in a Board consisting of the Secretary of State, the Attorney General, and the Secretary of War. The person principally interested and the leader of the group was the Secretary of State, Thomas Jefferson, who was personally deeply interested in the subject matter of patent law. Jefferson was not a patentee himself, but he was the inventor of a number of devices, most of them being "gadgets."

This first law made the power of the Board to issue patents absolute, and also provided for various things that would be necessary in a general patent law.

While the Board, and particularly Thomas Jefferson, was quite favorable to the granting of patents, and granted them with great consideration, the other duties of members of this Board, in view of their high offices, made it impossible for them to devote much time to this work, and as a result the law was changed in 1793 to make the granting of patents a clerical function. Under the act of 1793 patents were granted to anyone who applied on fulfilling the formal requirements and filing the necessary papers and fees.

This law continued in force until 1836 when the dissatisfaction with the granting of patents without any examination as to novelty or other matters led to the appointment of a select committee by the Senate which introduced a bill that became the new law which was enacted on July 4, 1836. This new law contains the fundamental

principles of our present patent law. It created a Patent Office with a Commissioner of Patents at the head, and examiners with the function of examining applications for patents and with the power to refuse patents, which was not present in the previous law. The law had many other provisions in it relating to details of procedure, enforcement of patents, and matters of that sort.

Amendments were made to this act of 1836 at various times until 1870 when the law was completely revised in the manner above referred to.

The present bill in a sense, then, is the second revision and codification of the patent laws by a committee on the Revision of the Laws and a committee in charge of patents.

#### GENERAL DESCRIPTION OF BILL

Although the principal purpose of the bill is the codification of title 35, United States Code and involves simplification and clarification of language and arrangement, and elimination of obsolete and redundant provisions there are a number of changes in substantive statutory law. These will be explained in some detail in the revision notes keyed to each section which appear in the appendix of this report. The major changes or innovations in the title consist of incorporating a requirement for invention in § 103 and the judicial doctrine of contributory infringement in § 271.

The bill divides the statutes into three parts. The first part contains the sections of the law relating to the Patent Office generally, its powers and duties and some ancillary matters of that kind. The second part consists of the sections relating to the conditions under which a patent may be obtained and the procedure in obtaining patents. The third part contains the sections relating to the patents themselves and the protection of rights under patents, and matters relating to that phase of the subject.

Stated generally, these three parts relate to, first, the Patent Office, second, obtaining a patent, and third, the patent itself. Of course it has not been possible to maintain this three-part division strictly and there may be some overlapping of the three phases of the subject. In each part the sections are arranged in several chapters of more or less homogeneous subject matter, with chapter headings.

The organization of the bill and the arrangement of the sections are such that new future amendments can readily find their place in the organization. Catchlines of parts, chapters and sections are provided for convenience of reference.

The first chapter in part I relates to the Patent Office and covers the establishment of the Patent Office, its seal, officers and employees, restrictions on officers and employees as to interest in patents, bond of the Commissioner, duties of the Commissioner, the Board of Appeals, the Patent Office library, etc. Very little change is introduced in these sections. There is one change in section 3, relating to a temporary successor to the Commissioner when the office is vacant, filling a gap in the present law. There is a change in section 4 relating to the disability of Patent Office employees to obtain patents.

The next chapter collects some of the details relating to procedure in the Patent Office of general application with no important changes.

The next group, sections 31, 32, and 33 relate to practice before the Patent Office. In them the language of the prior statutes has been rearranged and divided into several sections. There has been no change in substance in these sections, except in the third of this group which is a criminal provision for unauthorized practice. The language has been considerably simplified, and the maximum fine has been raised from \$100 to \$1,000.

In the next group of sections, relating to Patent Office fees, there have been a few readjustments in some minor fees, and an upward change in the fee for an appeal to the Board of Appeals.

The sections of the first part apply to the Patent Office as such, and, except for provisions specific to patents, include trade-marks as well as patents, where they relate to organizational and procedural matters, since the registration of trade-marks is handled by the Patent Office.

Part II relates to patentability of inventions and the grant of patents.

Referring first to section 101, this section specifies the type of material which can be the subject matter of a patent. The present law states that any person who has invented or discovered any "new and useful art, machine, manufacture, or composition of matter, or any new or useful improvement thereof" may obtain a patent. That language has been preserved except that the word "art" which appears in the present statute has been changed to the word "process." "Art" in this place in the present statute has a different meaning than the words "useful art" in the Constitution, and a different meaning than the use of the word "art" in other places in the statutes, and it is interpreted by the courts to be practically synonymous with process or method. The word "process" has been used to avoid the necessity of explanation that the word "art" as used in this place means "process or method," and that it does not mean the same thing as the word "art" in other places.

The definition of "process" has been added in section 100 to make it clear that "process or method" is meant, and also to clarify the present law as to the patentability of certain types of processes or methods as to which some insubstantial doubts have been expressed.

Section 101 sets forth the subject matter that can be patented, "subject to the conditions and requirements of this title." The conditions under which a patent may be obtained follow, and section 102 covers the conditions relating to novelty.

A person may have "invented" a machine or a manufacture, which may include anything under the sun that is made by man, but it is not necessarily patentable under section 101 unless the conditions of the title are fulfilled.

Section 102 in paragraphs (a), (b), and (c) repeats the conditions in the existing law relating to novelty.

Subsection (a) is the language of the existing law, recognizing that the interpretation by the courts excludes various kinds of private knowledge not known to the public.

Paragraph (d) relating to a bar to patentability when the inventor has previously obtained a patent in a foreign country, represents a liberalizing change in the existing law.

Subsection (e) is another well-recognized condition imposed by a decision of the Supreme Court which was not expressed in the existing law; for the purpose of anticipating subsequent inventors, a

patent disclosing the subject matter speaks from the filing date of the application disclosing the subject matter.

Subsection (f) merely emphasizes that it is the inventor that applies for the patent.

Subsection (g) relates to the question of priority of invention between rival inventors.

Section 102, in general, may be said to describe the statutory novelty required for patentability, and includes, in effect, an amplification and definition of "new" in section 101.

Section 103, for the first time in our statute, provides a condition which exists in the law and has existed for more than 100 years, but only by reason of decisions of the courts. An invention which has been made, and which is new in the sense that the same thing has not been made before, may still not be patentable if the difference between the new thing and what was known before is not considered sufficiently great to warrant a patent. That has been expressed in a large variety of ways in decisions of the courts and in writings. Section 103 states this requirement in the title. It refers to the difference between the subject matter sought to be patented and the prior art, meaning what was known before as described in section 102. If this difference is such that the subject matter as a whole would have been obvious at the time to a person skilled in the art, then the subject matter cannot be patented.

That provision paraphrases language which has often been used in decisions of the courts, and the section is added to the statute for uniformity and definiteness. This section should have a stabilizing effect and minimize great departures which have appeared in some cases.

The next group of sections relates to the application for a patent.

Sections 116 and 118 introduce a new element in our statutes. The existing statute is very strict in requiring that only the inventor may apply for a patent. These two sections provide for certain types of situations where it may be impossible for the inventor himself to apply, or where, in the case of a joint invention, one of the joint applicants has been inadvertently erroneously included or a joint inventor inadvertently excluded; the sections provide all the safeguards necessary for the inventor.

Section 119 introduces a minor change.

Sections 120 and 121 express in the statute certain matters which exist in the law today but which had not before been written into the statute, and in so doing make some minor changes in the concepts involved.

Section 122 incorporates into the title the rule of secrecy of patent applications which has existed in the Patent Office for generations.

The next chapter relates to the examination of the application in the Patent Office; rejection by the examiner, the right to reconsideration, the time within which an applicant must reply to actions, time for prosecuting application, appeal to the Board, and interferences between rival claimants for a patent. Very little has been changed in this group of sections except a minor revision in the interference section.

The next chapter relates to the review of Patent Office decisions.

The act of 1836 provided, for the first time, for the refusal of patents by officials known as examiners. The legislature was jealous of the

rights of the public and provided adequate means of reviewing the action of the Patent Office. In fact, there are now two types of review. The applicant may appeal to a court of appeals especially provided, or he may file suit in the district court against the Commissioner to have his rights adjudicated by the court.

This group of sections makes no fundamental change in the various appeals and other review of Patent Office action, but has made a few changes in the procedure in various instances to correct some of the problems which have arisen, particularly in section 146. These details are mainly procedural.

The next chapter collects the provisions relating to plant patents, the next those relating to designs, and chapter 17 restates the recently enacted statute relating to secrecy of certain inventions.

Part III deals with the patent itself after it has been granted.

The first chapter of this part relates to correcting and amending a patent.

Sections 251 and 252 are a development of the present statute relating to what are called reissues. Under certain circumstances the patentee may obtain a new patent to replace the old one to correct certain kinds of defects that he may have discovered in the patent. These two sections together replace the present one, make a number of clarifications and a few additions in further development of the subject.

Section 253 relates to another form of correction of a patent known as the disclaimer. The patentee files a paper in the Office which is recorded. He disclaims certain things from the scope of his patent or disclaims certain claims. This subject of disclaimers, in the present law, has resulted in a great deal of confusion and uncertainty in certain situations in the law which at times are almost ridiculous. Consequently, the bill in two sections, 253 and 288, has introduced certain changes relating to disclaimers. One of these changes is that only a whole claim can be disclaimed; a patent can not be rewritten by filing a paper in the Patent Office.

The second change relates to the situation when a patent has two or more claims and one of them may be discovered to be invalid. There is now a provision in the statute under which an invalid claim must be disclaimed without unreasonable delay in order to save the rest of the patent. What delay is unreasonable is presently quite confusing, and the present law does not, as a matter of fact, prevent the patentee from suing again on the invalid claim if he so wishes.

The bill has eliminated that requirement. It has left the situation so that if one claim of a patent is invalid, the patentee may take it out. He may sue on the remaining claims which have whatever validity they may have on their own merits. That is, one bad claim does not affect the other claims, unless they are also bad for similar reasons.

Other provisions of the bill take care at least as well as is done in the present law of the possibility of a patentee suing again after his patent has been held invalid. That can be done today and no change is made in that situation, except that certain provisions tend to deter doing such a thing.

Section 255, which permits the Patent Office to correct by a certificate a merely clerical error made by the patentee, is new.

Section 256 is a new section in the law that is correlated with section 116 and relates to a mistake in joining a person as a joint inventor. Very often two or three people make an invention together. They must apply as joint inventors. If they make a mistake in determining who are the true inventors, they do so at their peril. This provision permits a bona fide mistake in joining a person as inventor or in failing to join a person as an inventor to be corrected.

The next chapter of two sections relates to assignments and ownership.

Section 262 merely states in the statute a peculiarity relating to joint ownership.

The next two sections collect provisions now in the law referring to the Government ownership of patents, making little change except in language.

The next chapter relates to infringements of patents.

Section 271, paragraph (a), is a declaration of what constitutes infringement. There is no declaration of what constitutes infringement in the present statute. It is not actually necessary because the granting clause creates certain exclusive rights and infringement would be any violation of those rights.

Paragraphs (b), (c), and (d) relate to the subject referred to as contributory infringement. The doctrine of contributory infringement has been part of our law for about 80 years. It has been applied to enjoin those who sought to cause infringement by supplying someone else with the means and directions for infringing a patent. One who makes a special device constituting the heart of a patented machine and supplies it to others with directions (specific or implied) to complete the machine is obviously appropriating the benefit of the patented invention. It is for this reason that the doctrine of contributory infringement, which prevents appropriating another man's patented invention, has been characterized as "an expression both of law and morals." Considerable doubt and confusion as to the scope of contributory infringement has resulted from a number of decisions of the courts in recent years. The purpose of this section is to codify in statutory form principles of contributory infringement and at the same time eliminate this doubt and confusion. Paragraph (b) recites in broad terms that one who aids and abets an infringement is likewise an infringer. The principle of contributory infringement is set forth in the provisions of the next paragraph which is concerned with the usual situation in which contributory infringement arises. This latter paragraph is much more restricted than many proponents of contributory infringement believe should be the case. The sale of a component of a patented machine, etc., must constitute a material part of the invention and must be known to be especially made or especially adapted for use in the infringement before there can be contributory infringement, and likewise the sale of staple articles of commerce suitable for non-infringement use does not constitute contributory infringement. The last paragraph of this section provides that one who merely does what he is authorized to do by statute is not guilty of misuse of the patent. These paragraphs have as their main purpose clarification and stabilization.

Section 272 is a new section in the law relating to infringement, but it is of relatively little importance and it follows a paragraph in a treaty to which the United States is a party.

Beginning with 281 is a group of sections relating to remedy for infringement of a patent, the suit in the courts. The present statutes on this matter are in confusion because they were written quite some time ago and court procedure and the names of actions and so on have changed since then. So the present sections were substantially reorganized into a group of sections fitting in at this place, with some changes.

Section 281 is a declaration which serves as a preamble to the others.

Section 282 introduces a declaration of the presumption of validity of a patent, which is now a statement made by courts in decisions, but has had no expression in the statute. The defenses to a suit for infringement are stated in general terms, changing the language in the present statute, but not materially changing the substance.

The next few sections relate to injunctions, damages, attorney fees, the statute of limitations, and to marking and notice; all of which together replace present statutes on suits, with a good deal of reorganization in language to clarify the statement of the statutes.

Section 288 is the companion section to the disclaimer section, 253.

Section 292 is a criminal statute relating to falsely marking an article as being patented when it was not patented, which is now the present law. But this section revises it and makes a few changes, and also makes it an ordinary criminal action as well as an informer action as in the present statute.

Section 293 is a new section that is needed on some occasions to obtain jurisdiction over foreign patent owners that do not reside in the United States.

The revision notes, which follow and constitute a part of this report, point out in more detail the revisions made by the bill.

## SECTION 1—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 1 (R. S. 475 and Executive Order 4175, Mar. 17, 1925).

The word "all" is omitted from the corresponding section of the existing statute and "except as otherwise provided by law" added, since some old records are kept in the National Archives, see 44 U. S. C., 1946 ed., ch. 8A.

The word "models" has been omitted to remove emphasis on models since they are no longer generally required. They are included by the word "things."

The phrase "and to trade-mark registrations" is added. There is no enactment corresponding to this section in the trade-mark law. The original chapter of the Revised Statutes containing this section deals with the Patent Office as such in its administration of trade-marks as well as patents. This is explicitly brought out in some of the corresponding sections of the present chapter.

Changes in language are made.

## SECTION 2—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 3 (R. S. 478).

"Certificates of trade-mark registrations" is added, see note under section 1. Changes in language are made and the specific date eliminated.

## SECTION 3—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 2 (R. S. 476, amended (1) Feb. 15, 1916, ch. 22, § 1, 39 Stat. 8, (2) Feb. 14, 1927, ch. 139, § 1, 44 Stat. 1098, (3) April 11, 1930, ch. 132, § 1, 46 Stat. 155).

The temporary designation of the assistant commissioner as Commissioner in case of a vacancy in office is added. This will eliminate complications since present applicable general statutes (5 U. S. C., 1946 ed., § 7) permit a vacancy to be temporarily filled only for not more than 30 days.

Changes in language are made. "Assistant commissioners" is used in the second sentence (and elsewhere in the bill) as referring to all three assistants.

This entire title is subject to Reorganization Plan No. 5 of 1950 (64 Stat. 1263) which vests all functions of the Patent Office in the Secretary of Commerce and authorizes delegation by him. It has been found impractical to so word the various sections of the title, and a general provision has been inserted as the second paragraph of this section of the bill, leaving the wording of various sections of the title in terms of officers previously specified and to whom the functions presently stand delegated.

## SECTION 4—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 4 (R. S. 480).

The language is revised and inability to apply for a patent, included in the original language, is made explicit.

The period of disability is increased to include one year after leaving the Office.

The further restriction, that no priority date earlier than one year after leaving the Office can be claimed, is added.

The one year period is made inapplicable to applications which may be pending when the revised title goes into effect by section 4 (g) of the bill.

## SECTION 5—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 5 (R. S. 479).

Specific mention of the office of chief clerk is omitted from the corresponding section of the existing statute, the officers requiring bonds, and the amounts of the bonds are to be designated by the Commissioner.

## SECTION 6—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 6 (R. S. 481 and 483).

The two sections are combined into one with some changes in language.

"And the registration of trade-marks" is added, see note under section 1.

## SECTION 7—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 7 (R. S. 482, amended (1) Mar. 2, 1927, ch. 273, § 3, 44 Stat. 1335, (2) April 11, 1930, ch. 132, § 2, 46 Stat. 155, (3) Mar. 4, 1950, ch. 50, 64 Stat. 11).

Some changes in language have been made and the reference to interferences, which are no longer considered by the Board of Appeals, has been deleted. Reference to reissues is omitted in view of the general provision in section 201.

## SECTION 8—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 10 (R. S. 486).

Some change in language has been made. "Purchased" is changed to "maintained" to include the existing library and keeping it up by additions. The phrase "and other" is added to include legal works. The last phrase of the corresponding section of the existing statute is omitted as unnecessary.

## SECTION 9—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 6 note (June 10, 1898, ch. 430, § 1, 30 Stat. 440).

Changes in language are made.

## SECTION 10—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 14 (Mar. 3, 1891, ch. 541, § 1 (part), 26 Stat. 908, 940).

Reference to other records is added. The fee for certification is omitted as it appears in the table of fees.

## SECTION 11—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., §§ 13 and 16 (R. S. 489; July 9, 1947, ch. 211, § 301 (part), 61 Stat. 299, repeated in prior and subsequent appropriation acts).

Section is amplified to list the publications of the Patent Office, based on 44 U. S. C., 1946 ed., § 283, 283a.

The second sentence of item 1 of the revised section is a provision appearing annually in appropriation acts to enable the Patent Office to maintain a small printing press to place headings on drawings before the drawings are reproduced.

Language is changed.

#### SECTION 12—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., §§ 15 and 78, part (Jan. 14, 1915, 38 Stat. 1221; Feb. 18, 1922, ch. 58, § 9, proviso in, 42 Stat. 393).

The first act mentioned applies to Canada only, the second to any country; these are consolidated in one section, specific reference to one country not being necessary.

Language is changed.

#### SECTION 13—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 78, part (R. S. 4934, Feb. 18, 1922, ch. 58, § 9, 42 Stat. 389, 393, amended June 15, 1950, ch. 249, 64 Stat. 215).

The proviso in the schedule of fees of the existing statute is made a separate section and some changes in language are made.

#### SECTION 14—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 20 (R. S. 494).

Language is changed. The lists referred to in the corresponding section of existing statute, and which are omitted from the revised section, are the indexes provided for in section 11 (a) 4. The month of reporting is omitted. The report contemplated by R. S. 494 has been discontinued since 1925 under authority of 44 U. S. C., 1946 ed., § 212.

### CHAPTER 2. PROCEEDINGS IN THE PATENT OFFICE

Based on title 35, U. S. C., 1946 ed., § 21 (Mar. 2, 1927, ch. 273, § 14, 44 Stat. 1337).

Based on title 35, U. S. C., 1946 ed., § 53 (R. S. 4905).

This section is placed in part 1 since it relates to trade-mark cases in the Patent Office as well as to patent cases.

Language is changed.

#### SECTION 24—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., §§ 54, 55 and 56 (R. S. 4906, amended Feb. 18, 1922, ch. 58, § 7, 42 Stat. 389, 391-2; R. S. 4907; R. S. 4908).

Three sections of the existing statute are combined with some changes in language and placed in part 1 since they apply to trade-mark cases in the Patent Office as well as to patent cases. Reference to a repealed statute in the first paragraph is replaced by reference to the Federal Rules of Civil Procedure and certain rules are made applicable.

### CHAPTER 3, PRACTICE BEFORE PATENT OFFICE

- Sec.
31. Regulations for agents and attorneys.
  32. Suspension or exclusion from practice.
  33. Unauthorized representation as practitioner.

#### SECTION 31—SECTION REVISED

- Sec.
41. Patent fees.
  42. Payment of patent fees; return of excess amounts.

#### SECTION 41—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 78 (R. S. 4934, amended (1) May 27, 1908, ch. 200, § 1 (part) 35 Stat. 317, 343; (2) June 25, 1910, ch. 414, § 2, 35 Stat. 843; (3) Feb. 18, 1922, ch. 58, § 9, 42 Stat. 389, 393; (4) Feb. 14, 1927, ch. 139, § 2, 44 Stat. 1098, 1099; (5) Mar.

The items in the schedule of fees are rearranged in a few instances and are numbered for convenient reference.

The obsolete fee for appeal from the examiners of interferences to the Board of Appeals is omitted.

The fee for appeal to the Board of Appeals is changed from \$15 to \$25.

Two provisos in the corresponding section of the existing statute have been made separate sections, see sections 12 and 13.

The fee for a certificate is changed from 50 cents to \$1 to correspond to the same fee in the trade-mark statute.

A new item (8) is added to go with section 205.

An omnibus item to take care of miscellaneous minor fees is added; in view of this, two items in the present schedule are omitted.

### PART II. PATENTABILITY OF INVENTIONS AND GRANT OF PATENTS

Chapter	Sec.
10. PATENTABILITY OF INVENTIONS.....	100
11. APPLICATION FOR PATENT.....	111
12. EXAMINATION OF APPLICATIONS.....	131
13. REVIEW OF PATENT OFFICE DECISIONS.....	141
14. ISSUE OF PATENT.....	151
15. PLANT PATENTS.....	161
16. DESIGNS.....	171
17. SECRECY OF CERTAIN INVENTIONS AND FILING APPLICATIONS ABROAD.....	181

#### CHAPTER 10. PATENTABILITY OF INVENTIONS

Sec.
100. Definitions.
101. Inventions patentable.
102. Conditions for patentability; novelty and loss of right to patent.
103. Conditions for patentability; nonobvious subject matter.
104. Invention made abroad.

#### SECTION 100—NEW SECTION

Paragraph (a) is added only to avoid repetition of the phrase "invention or discovery" and its derivatives throughout the revised title. The present statutes use the phrase "invention or discovery" and derivatives.

Paragraph (b) is noted under section 101.

Paragraphs (c) and (d) are added to avoid the use of long expressions in various parts of the revised title.

#### SECTION 101—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 31 (R. S. 4886, amended (1) Mar. 3, 1897, ch. 391, § 1, 29 Stat. 692, (2) May 23, 1930, ch. 312, § 1, 46 Stat. 376, (3) Aug. 5, 1939, ch. 450, § 1, 53 Stat. 1212).

The corresponding section of existing statute is split into two sections, section 101 relating to the subject matter for which patents may be obtained, and section 102 defining statutory novelty and stating other conditions for patentability.

Section 101 follows the wording of the existing statute as to the subject matter for patents, except that reference to plant patents has been omitted for incorporation in section 301 and the word "art" has been replaced by "process", which is defined in section 100. The word "art" in the corresponding section of the existing statute has a different meaning than the same word as used in other places in the statute; it has been interpreted by the courts as being practically synonymous with process or method. "Process" has been used as its meaning is more readily grasped than "art" as interpreted, and the definition in section 100 (b) makes it clear that "process or method" is meant. The remainder of the definition clarifies the status of processes or methods which involve merely the new use of a known process, machine, manufacture, composition of matter, or material; they are processes or methods under the statute and may be patented provided the conditions for patentability are satisfied.

#### SECTION 102—SECTION REVISED

Paragraphs (a), (b), and (c) are based on 35 U. S. C., 1946 ed., § 31 (R. S. 4886, amended (1) Mar. 3, 1897, ch. 391, § 1, 29 Stat. 692, (2) May 23, 1930, ch. 312, § 1, 46 Stat. 376, (3) Aug. 5, 1939, ch. 450, § 1, 53 Stat. 1212).

No change is made in these paragraphs other than that due to division into lettered paragraphs. The interpretation by the courts of paragraph (a) as being more restricted than the actual language would suggest (for example, "known" has been held to mean "publicly known") is recognized but no change in the language is made at this time. Paragraph (a) together with section 104 contains the substance of title 35 U. S. C., 1946 ed., § 72 (R. S. 4923).

Paragraph (d) is based on 35 U. S. C., 1946 ed., § 32, first paragraph (R. S. 4887 (first paragraph), amended (1) Mar. 3, 1897, ch. 391, § 3, 29 Stat. 692, 693, (2) Mar. 3, 1903, ch. 1019, § 1, 32 Stat. 1225, 1226, (3) June 19, 1936, ch. 594, 49 Stat. 1529).

The section has been changed so that the prior foreign patent is not a bar unless it was granted before the filing of the application in the United States.

Paragraph (e) is new and enacts the rule of *Milburn v. Davis-Bournonville*, 270 U. S. 390, by reason of which a United States patent disclosing an invention dates from the date of filing the application for the purpose of anticipating a subsequent inventor.

Paragraph (f) indicates the necessity for the inventor as the party applying for patent. Subsequent sections permit certain persons to apply in place of the inventor under special circumstances.

Paragraph (g) is derived from title 35, U. S. C., 1946 ed., § 69 (R. S. 4920, amended (1) Mar. 3, 1897, ch. 391, § 2, 29 Stat. 692,

(2) Aug. 5, 1939, ch. 450, § 1, 53 Stat. 1212), the second defense recited in this section. This paragraph retains the present rules of law governing the determination of priority of invention.

Language relating specifically to designs is omitted for inclusion in subsequent sections.

#### SECTION 103—NEW SECTION

There is no provision corresponding to the first sentence explicitly stated in the present statutes, but the refusal of patents by the Patent Office, and the holding of patents invalid by the courts, on the ground of lack of invention or lack of patentable novelty has been followed since at least as early as 1850. This paragraph is added with the view that an explicit statement in the statute may have some stabilizing effect, and also to serve as a basis for the addition at a later time of some criteria which may be worked out.

The second sentence states that patentability as to this requirement is not to be negated by the manner in which the invention was made, that is, it is immaterial whether it resulted from long toil and experimentation or from a flash of genius.

#### SECTION 104—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 109 (Aug. 8, 1946, ch. 910, 60 Stat. 943).

Language has been changed and the last sentence has been broadened to refer to persons serving in connection with operations by or on behalf of the United States, instead of solely in connection with the prosecution of the war.

### CHAPTER 11. APPLICATION FOR PATENT

- Sec.
- 111. Application for patent.
  - 112. Specification.
  - 113. Drawings.
  - 114. Models, specimens.
  - 115. Oath of applicant.
  - 116. Joint inventors.
  - 117. Death or incapacity of inventor.
  - 118. Filing by other than inventor.
  - 119. Benefit of earlier filing date in foreign country; right of priority.
  - 120. Benefit of earlier filing date in the United States.
  - 121. Divisional applications.
  - 122. Confidential status of applications.

#### SECTION 111—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 33 (R. S. 4888, amended (1) Mar. 3, 1915, ch. 94, § 1, 38 Stat. 958; (2) May 23, 1930, ch. 312, § 2, 46 Stat. 376).

The corresponding section of existing statute is divided into an introductory section relating to the application generally (this section) and a section on the specification (sec. 112).

The parts of the application are specified and the requirement for signature is placed in this general section so as to insure that only one signature will suffice.

#### SECTION 112—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 33 (R. S. 4888, amended (1) Mar. 3, 1915, ch. 94, § 1, 38 Stat. 958; (2) May 23, 1930, ch. 312, § 2, 46 Stat. 376).

The sentence relating to signature of the specification is omitted in view of the general requirement for a signature in section 111.

The last sentence is omitted for inclusion in the chapter relating to plant patents.

The clause relating to machines is omitted as unnecessary and the requirement for disclosing the best mode of carrying out the invention is stated as generally applicable to all types of invention (derived from title 35, U. S. C., 1946 ed., § 69, first defense).

The clause relating to the claim is made a separate paragraph to emphasize the distinction between the description and the claim or definition, and the language is modified.

A new paragraph relating to functional claims is added.

#### SECTION 113—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 34, part (R. S. 4889, amended Mar. 3, 1915, ch. 94, § 2, 38 Stat. 958).

The requirement for signature in the corresponding section of existing statute is omitted; regulations of the Patent Office can take care of any substitute. A redundant clause is omitted.

#### SECTION 114—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 34, part (R. S. 4890 and 4891).

The change in language in the second paragraph broadens the requirement for specimens.

#### SECTION 115—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 35 (R. S. 4892, amended (1) Mar. 3, 1903, ch. 1019, § 2, 32 Stat. 1225, 1226, (2) May 23, 1930, ch. 312, § 3, 46 Stat. 376).

The expression at the end of the second sentence is added to avoid application of the District of Columbia law to oaths taken outside the District.

Changes in language are made.

#### SECTION 116—NEW SECTION

The first paragraph is implied in the present statutes, and the part of the last paragraph relating to omission of an erroneously joined inventor is in the Patent Office rules. The remainder is new and provides for the correction of a mistake in erroneously joining a person as inventor, and for filing an application when one of several joint inventors cannot be found. This section is ancillary to section 256.

#### SECTION 117—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 46 (R. S. 4896, amended (1) Feb. 28, 1899, ch. 227, 30 Stat. 915, (2) Mar. 3, 1903, ch. 1019, § 3, 32 Stat. 1225, 1226, (3) May 23, 1908, ch. 188, 35 Stat. 245).

The language has been considerably simplified.

## SECTION 118—NEW SECTION

This section is new and provides for the filing of an application by another on behalf of the inventor in certain special hardship situations.

## SECTION 119—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 32, second paragraph (R. S. 4887, second paragraph, amended (1) Mar. 3, 1903, ch. 1019, § 1, 32 Stat. 1225, 1226, (2) June 19, 1936, ch. 594, 49 Stat. 1529, (3) Aug. 5, 1939, ch. 450, § 1, 53 Stat. 1212).

The first paragraph is the same as the present law with changes in language. The references to designs have been removed for inclusion in another section and the opening clause has been modified to accord with actual practice and the requirements of the International Convention for the Protection of Industrial Property.

The second paragraph is new, making an additional procedural requirement for obtaining the right of priority. Copies of the foreign papers on which the right of priority is based are required so that the record of the United States patent will be complete in this country.

## SECTION 120—NEW SECTION

This section represents present law not expressed in the statute, except for the added requirement that the first application must be specifically mentioned in the second.

## SECTION 121—NEW SECTION

This section enacts as law existing practice with respect to division, at the same time introducing a number of changes. Division is made discretionary with the Commissioner. The requirements of section 120 are made applicable and neither of the resulting patents can be held invalid over the other merely because of their being divided in several patents. In some cases a divisional application may be filed by the assignee.

## SECTION 122—NEW SECTION

This section enacts the Patent Office rule of secrecy of applications.

## CHAPTER 12. EXAMINATION OF APPLICATION

Sec.

- 131. Examination of application.
- 132. Notice of rejection; reexamination.
- 133. Time for prosecuting application.
- 134. Appeal to the Board of Appeals.
- 135. Interferences.

## SECTION 131—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 36 (R. S. 4893).

The first part is revised in language and amplified. The phrase "and that the invention is sufficiently useful and important" is omitted as unnecessary, the requirements for patentability being stated in sections 101, 102 and 103.

## SECTION 132—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 51 (R. S. 4903, amended Aug. 5, 1939, ch. 452, § 1, 53 Stat. 1213).

The first paragraph of the corresponding section of existing statute is revised in language and amplified to incorporate present practice; the second paragraph of the existing statute is placed in section 135.

The last sentence relating to new matter is added but represents no departure from present practice.

## SECTION 133—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 37 (R. S. 4894, amended (1) Mar. 3, 1897, ch. 391, § 4, 29 Stat. 692, 693, (2) July 6, 1916, ch. 225, § 1, 39 Stat. 345, 347-8, (3) Mar. 2, 1927, ch. 273, § 1, 44 Stat. 1335, (4) Aug. 7, 1939, ch. 568, 53 Stat. 1264).

The opening clause of the corresponding section of existing statute is omitted as having no present day meaning or value and the last two sentences are omitted for inclusion in section 267. The notice is stated as given or mailed. Language is revised.

## SECTION 134—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 57 (R. S. 4909 amended (1) Mar. 2, 1927, ch. 273, § 5, 44 Stat. 1335, 1336, (2) Aug. 5, 1939, ch. 451, § 2, 53 Stat. 1212).

Reference to reissues is omitted in view of the general provision in section 251. Minor changes in language are made.

## SECTION 135—SECTION REVISED

The first paragraph is based on title 35, U. S. C., 1946 ed., § 52 (R. S. 4904 amended (1) Mar. 2, 1927, ch. 273, § 4, 44 Stat. 1335, 1336, (2) Aug. 5, 1939, ch. 451, § 1, 53 Stat. 1212).

The first paragraph states the existing corresponding statute with a few changes in language. An explicit statement that the Office decision on priority constitutes a final refusal by the Office of the claims involved, is added. The last sentence is new and provides that judgment adverse to a patentee constitutes cancellation of the claims of the patent involved after the judgment has become final, the patentee has a right of appeal (sec. 141) and is given a right of review by civil action (sec. 146).

The second paragraph is based on title 35, U. S. C., 1946 ed., § 51, (R. S. 4903, amended Aug. 5, 1939, ch. 452, § 1, 53 Stat. 1213). Changes in language are made.

## CHAPTER 13. REVIEW OF PATENT OFFICE DECISIONS

- Sec.
141. Appeal to Court of Customs and Patent Appeals.  
 142. Notice of appeal.  
 143. Proceedings on appeal.  
 144. Decision on appeal.  
 145. Civil action to obtain patent.  
 146. Civil action in case of interference.

## SECTION 141—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 59a (R. S. 4911, amended (1) Mar. 2, 1927, ch. 273, § 8, 44 Stat. 1336, (2) Mar. 2, 1929, ch. 4888, § 2a, 45 Stat. 1476, (3) Aug. 5, 1939, ch. 451, § 3, 53 Stat. 1212).

Changes in language are made.

The third paragraph incorporates by reference the requirements of other applications, and adds a new provision relating to application for reissue being made in certain cases by the assignee.

A two year period of limitation on applying for broadened reissues is added, codifying the present rule of decision with a fixed period.

## SECTION 252—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 64 (R. S. 4916, amended May 24, 1928, ch. 730, 45 Stat. 732.)

The first paragraph follows the present section with some rearrangement in language. The second paragraph adds new provisions for the protection of intervening rights, the court is given discretion to protect legitimate activities which would be adversely affected by the grant of a reissue and things made before the grant of the reissue are not subject to the reissue unless a claim of the original patent which is repeated in the reissue is infringed.

## SECTION 253—SECTION REVISED

Based on title 35, U. S. C., 1946 ed., § 65 (R. S. 4917).

## SECTION 255—NEW SECTION

This section providing for the correction of minor clerical errors made by the applicant, is new and follows a similar provision in the trade-mark law, 15 U. S. C., 1946 ed., § 1057 (g).

## SECTION 256—NEW SECTION

This section is new and is companion to section 116.

The first two paragraphs provide for the correction of the inadvertent joining or nonjoining of a person as a joint inventor. The third paragraph provides that a patent shall not be invalid for such cause, and also provides that a court may order correction of a patent; the two sentences of this paragraph are independent.

## CHAPTER 26. OWNERSHIP AND ASSIGNMENT

Sec.
261. Ownership; assignment.
262. Joint owners.

## SECTION 261—SECTION REVISED

Changes in language are made. The omission of the specific reference to 35 U. S. C., 1946 ed., § 31, (R. S. 4886) broadens the section so as to include design patents.

## SECTION 267—SECTION REVISED

Based on title 35, U. S. C. 1946 ed., § 37 (R. S. 4894, amended (1) Mar. 3, 1897, ch. 391, § 4, 29 Stat. 692, 693, (2) July 6, 1916, ch. 225, § 1, 39 Stat. 345, 347-8, (3) Mar. 2, 1927, ch. 273, § 1, 44 Stat. 1335, (4) Aug. 7, 1939, ch. 568, 53 Stat. 1264).

The first paragraph of this section is declaratory only, defining infringement.

Paragraphs (b) and (c) define and limit contributory infringement of a patent and paragraph (d) is ancillary to these paragraphs, see preliminary general description of bill. One who actively induces infringement as by aiding and abetting the same is liable as an infringer, and so is one who sells a component part of a patented invention or material or apparatus for use therein knowing the same to be especially made or especially adapted for use in the infringement of the patent except in the case of a staple article or commodity of commerce having other uses. A patentee is not deemed to have misused his patent solely by reason of doing anything authorized by the section.

## SECTION 272—NEW SECTION

This section follows the requirement of the International Convention for the Protection of Industrial Property, to which the United States is a party, and also codifies the holding of the Supreme Court that use of a patented invention on board a foreign ship does not infringe a patent.

The corresponding two sections of existing law are divided among sections 281, 283, 284, 285, 286 and 289 with some changes in language. Section 241 serves as an introduction or preamble to the following sections, the modern term civil action is used, there would be, of course, a right to a jury trial when no injunction is sought.

## SECTION 282—SECTION REVISED

## COMPLIANCE WITH RAMSEYER RULE

### 1. TEXT OF STATUTES FOR REPEAL

In compliance with paragraph 2a (1) of rule XIII of the Rules of the House of Representatives, the text of the statutes or parts thereof which are proposed to be repealed by the bill are set out below.

The Revised Statutes, set out first, are in numerical order according to section number. The Statutes at Large which specifically amend a section of the Revised Statutes follow the particular Revised Statute section. The Statutes at Large which do not specifically amend any particular section of the Revised Statutes follow the Revised Statutes in chronological order.

The citation in the left-hand column of the headings identifies the text of the Revised Statutes or Statutes at Large which immediately follows that reference; that in the right-hand column refers to the section of proposed title 35, "Patents", of the United States Code, where similar subject matter will be found. The word "omitted" in the right-hand column of a heading indicates that the particular text of such statute was not incorporated in proposed title 35 because it was obsolete, executed, covered by other law, or superseded by later law. The specific reasons for omitting and repealing such statutes are given in the table of omitted laws elsewhere in this report.

### REVISED STATUTES

As amended Aug. 5, 1939, ch. 451, § 4, 53 Stat. 1212.

Sec. 4. That section 4915 of the Revised Statutes (U. S. C., title 35, sec. 63) be amended by changing the first sentence thereof to read:

"Whenever a patent on application is refused by the Board of Appeals or whenever any applicant is dissatisfied with the decision of the board of interference examiners, the applicant, unless appeal has been taken to the United States Court of Customs and Patent Appeals, and such appeal is pending or has been decided, in which case no action may be brought under this section, may have remedy by bill in equity, if filed within six months after such refusal or decision; and the court having cognizance thereof, on notice to adverse parties and other due proceedings had, may adjudge that such applicant is entitled, according to law, to receive a patent for his invention, as specified in his claim or for any part thereof, as the facts in the case may appear."

R. S. 4916..... T. 35, §§ 251, 252

Whenever any patent is inoperative or invalid, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his own invention or discovery more than he had a right to claim as new, if the error has arisen by inadvertence, accident, or mistake, and without any fraudulent or deceptive intention, the Commissioner shall, on the surrender of such patent and the payment of the duty required by law, cause a new patent for the same invention, and in accordance with the corrected specification, to be reissued to the patentee, or in the case of his death or of an assignment of the whole or any undivided part of the original patent, then to his executors, administrators, or assigns, for the unexpired part of the term of the original patent. Such surrender shall take

effect upon the issue of the amended patent. The Commissioner may, in his discretion, cause several patents to be issued for distinct and separate parts of the thing patented, upon demand of the applicant, and upon payment of the required fee for a reissue for each of such reissued letters-patent. The specifications and claims in every such case shall be subject to revision and restriction in the same manner as original applications are. Every patent so reissued, together with the corrected specification, shall have the same effect and operation in law, on the trial of all actions for causes thereafter arising, as if the same had been originally filed in such corrected form; but no new matter shall be introduced into the specification, nor in case of a machine patent shall the model or drawings be amended, except each by the other; but when there is neither model nor drawing, amendments may be made upon proof satisfactory to the Commissioner that such new matter or amendment was a part of the original invention, and was omitted from the specification by inadvertence, accident, or mistake, as aforesaid.

May 24, 1928, ch. 730, 45 Stat. 732 as amended.

That section 4916 of the Revised Statutes of the United States be, and the same is hereby, amended to read as follows:

"Sec. 4916. Whenever any patent is wholly or partly inoperative or invalid, by reason of a defective or insufficient specification, or by reason of the patentee claiming as his own invention or discovery more than he had a right to claim as new, if the error has arisen by inadvertence, accident, or mistake, and without any fraudulent or deceptive intention, the commissioner shall, on the surrender of such patent and the payment of the duty required by law, cause a patent for the same invention, and in accordance with the corrected specification, to be reissued to the patentee or to his assigns or legal representatives, for the unexpired part of the term of the original patent. Such surrender shall take effect upon the issue of the reissued patent, but in so far as the claims of the original and reissued patents are identical, such surrender shall not affect any action then pending nor abate any cause of action then existing, and the reissued patent to the extent that its claims are identical with the original patent shall constitute a continuation thereof and have effect continuously from the date of the original patent. The commissioner may, in his discretion, cause several patents to be issued for distinct and separate parts of the thing patented, upon demand of the applicant, and upon payment of the required fee for a reissue for each of such reissued letters-patent. The specifications and claims in every such case shall be subject to revision and restriction in the same manner as original applications are. Every patent so reissued, together with the corrected specifications, shall have the same effect and operation in law, on the trial of all actions for causes thereafter arising, as if the same had been originally filed in such corrected form; but no new matter shall be introduced into the specification, nor in case of a machine patent shall the model or drawings be amended, except each by the other; but when there is neither model nor drawing, amendments may be made upon proof satisfactory to the commissioner that such new matter or amendment was a part of the original invention, and was omitted from the specification by inadvertence, accident, or mistake, as aforesaid."

R. S. 4917..... T. 35, § 253

Whenever, through inadvertence, accident, or mistake, and without any fraudulent or deceptive intention, a patentee has claimed more than that of which he was the original or first inventor or discoverer, his patent shall be valid for all that part which is truly and justly his own, provided the same is a material or substantial part of the thing patented; and any such patentee, his heirs or assigns, whether of the whole or any sectional interest therein, may, on payment of the fee required by law, make disclaimer of such parts of the thing patented as he shall not choose to claim or to hold by virtue of the patent or assignment, stating therein the extent of his interest in such patent. Such disclaimer shall be in writing, attested by one or more witnesses, and recorded in the Patent Office; and it shall thereafter be considered as part of the original specification to the extent of the interest possessed by the claimant and by those claiming under him after the record thereof. But no such disclaimer shall affect any action pending at the time of its being filed, except so far as may relate to the question of unreasonable neglect or delay in filing it.

R. S. 4918..... T. 35, § 291

Whenever there are interfering patents, any person interested in any one of them, or in the working of the invention claimed under either of them, may have

relief against the interfering patentee, and all parties interested under him, by suit in equity against the owners of the interfering patent; and the court, on notice to adverse parties, and other due proceedings had according to the course of equity, may adjudge and declare either of the patents void in whole or in part, or inoperative, or invalid in any particular part of the United States, according to the interest of the parties in the patent or the invention patented. But no such judgment or adjudication shall affect the right of any person except the parties to the suit and those deriving title under them subsequent to the rendition of such judgment.

And whenever in any such action a verdict is rendered for the plaintiff, the court may enter judgment thereon for any sum above the amount found by the verdict as the actual damages sustained, according to the circumstances of the case, not exceeding three times the amount of such verdict, together with the costs.

R. S. 4920..... T. 35, § 282

In any action for infringement the defendant may plead the general issue, and, having given notice in writing to the plaintiff or his attorney thirty days before, may prove on trial any one or more of the following special matters:

First. That for the purpose of deceiving the public the description and specification filed by the patentee in the Patent Office was made to contain less than the whole truth relative to his invention or discovery, or more than is necessary to produce the desired effect; or,

Second. That he had surreptitiously or unjustly obtained the patent for that which was in fact invented by another, who was using reasonable diligence in adapting and perfecting the same; or,

Third. That it has been patented or described in some printed publication prior to his supposed invention or discovery thereof; or,

Fourth. That he was not the original and first inventor or discoverer of any material and substantial part of the thing patented; or,

Fifth. That it had been in public use or on sale in this country for more than two years before his application for a patent, or had been abandoned to the public.

And in notices as to proof of previous invention, knowledge, or use of the thing patented, the defendant shall state the names of the patentees and the dates of their patents; and when granted, and the names and residences of the persons alleged to have invented or to have had the prior knowledge of the thing patented, and where and by whom it had been used; and if any one or more of the special matters alleged shall be found for the defendant, judgment shall be rendered for him with costs. And the like defenses may be pleaded in any suit in equity for relief against an alleged infringement; and proofs of the same may be given upon like notice in the answer of the defendant, and with the like effect.

The court may in its discretion award reasonable attorney's fees to the prevailing party upon the entry of judgment on any patent case.

"The court is authorized to receive expert or opinion evidence upon which to determine in conjunction with any other evidence in the record, due compensation for making, using, or selling the invention, and such expert or opinion evidence is declared to be competent and admissible subject to the general rules of evidence applicable thereto.

"The court shall assess said damages, or cause the same to be assessed, under its direction and shall have the same power to increase the assessed damages, in its discretion, as is given to increase the damages found by verdicts in actions in the nature of actions of trespass upon the case; but recovery shall not be had for any infringement committed more than six years prior to the filing of the complaint in the action. And it shall be the duty of the clerks of such courts within one month after the filing of any action, suit, or proceeding arising under the patent laws to give notice thereof in writing to the Commissioner of Patents, setting forth in order so far as known the names and addresses of the litigants, names of the inventors, and the designating number or numbers of the patent or patents upon which the action, suit, or proceeding has been brought, and in the event any other patent or patents be subsequently included in the action, suit, or proceeding by amendment, answer, cross bill, or other pleading, the

clerk shall give like notice thereof to the Commissioner of Patents, and within one month after the decision is rendered or a judgment issued the clerk of the court shall give notice thereof to the Commissioner of Patents, and it shall be the duty of the Commissioner of Patents on receipt of such notice forthwith to endorse the same upon the file wrapper of the said patent or patents, and to incorporate the same as a part of the contents of said file or file wrapper."

Mar. 3, 1921, ch. 126, §§ 1-8, 41 Stat. 1313-1315..... Omitted

That the rights of priority provided by section 4887 of the Revised Statutes, for the filing of applications for patent for inventions and designs, which rights had not expired on the 1st day of August, 1914, or which rights have arisen since the 1st day of August, 1914, shall be, and the same are hereby extended until the expiration of a period of six months from the passage of this Act in favor of the citizens of the United States or citizens or subjects of all countries which have extended, or which now extend, or which within said period of six months shall extend substantially reciprocal privileges to citizens of the United States, and such extension shall apply to applications upon which patents have been granted, as well as to applications now pending or filed within the period herein: *Provided*, That such extension shall in no way furnish a basis of claim against the Government of the United States. *Provided further* That such extension shall in no way affect the right of any citizen of the United States, who, before the passage of this Act, was bona fide in possession of any rights in patents or applications for patent

conflicting with rights in patents granted or validated by reason of such extension, to exercise such rights by itself or himself personally, or by such agents, or licensees, as derived their rights from it, or him, before the passage of this Act, and such persons shall not be amenable to any action for infringement of any patent granted or validated by reason of such extension.

A patent shall not be refused on an application coming within the provisions of this Act, nor shall a patent granted on such application be held invalid by reason of the invention having been patented or described in any printed publication or in public use or on sale in the United States prior to the filing of the application, unless such patent or publication or such public use or sale was prior to the filing of the foreign application upon which the right of priority is based.

Sec. 2. That the time now fixed by law for the payment of any fee or for the taking of any action with respect to an application for patent, which time had not expired on August 1, 1914, or which commenced after August 1, 1914, is hereby extended until the expiration of one year from the passage of this Act, without the payment of extension fees or other penalty in favor of the citizens or subjects of countries which have extended, now extend, or shall extend during a period of one year from the passage of this Act substantially reciprocal privileges to citizens of the United States, provided that no extension herein shall confer such privileges on the citizens or subjects of a foreign country for a longer term than the term during which such privileges are conferred by such foreign country on the citizens of the United States, but nothing in this Act shall give any right to reopen interference proceedings where final hearing before the examiner of interferences has taken place.

Sec. 3. That no patent granted or validated by reason of the extensions provided for in sections 1 and 2 of this Act shall abridge or otherwise affect the right of any citizen of the United States, or his agent or agents, or his successor in business, to continue any manufacture, use, or sale commenced before the passage of this Act by such citizen, nor shall the continued manufacture, use, or sale by such citizen, or the use or sale of the devices resulting from such manufacture or use constitute an infringement.

Sec. 4. That all applications for patent filed since August 1, 1914, and prior to June 15, 1920, which were executed by an agent of the applicant, and in which a petition, specification, and oath, signed by the inventor, or his executor or administrator, had been filed or shall have been filed within a period of one year from the passage of this Act, and the patents granted on such applications, shall have the same force and effect as if the papers signed by the inventor, or his executor or administrator, had been filed on the date on which the papers signed by the agent were filed.

Sec. 5. That all applications for patent filed since August 1, 1914, in which the oath was executed before or authenticated by a consular officer, or other representative qualified to administer oaths, of a Government acting in the interest of the Government of the United States, shall have the same force and effect as if said oath had been executed by the applicant before a consular officer of the United States.

Sec. 6. That where an invention was made by a person while serving abroad, during the war, with the forces of the United States, civil or military, the inventor thereof shall be entitled, in interference and other proceedings arising in connection with such invention, to the same rights of priority with respect of such invention as if the same had been made in the United States, and where an application became abandoned or forfeited, during the time the applicant was serving with the forces of the United States, by reason of his failure to take action or pay a fee within the time now required by law, such action may be taken, or the fee paid, within six months from the passage of this Act.

Sec. 7. That no claim shall be made or action brought in respect of the use since August 1, 1914, up to the passage of this Act, by the Government of the United States, or by any persons acting on behalf of, or under contract with, or with the assent of the Government of the United States or of Governments or their representatives associated with the United States, under any patent rights owned in whole or in part since August 1, 1914, by an alien enemy, nor in respect of the use of any process during such period, or the sale, offering for sale, or use, at any time, of any products, articles, or apparatus whatsoever manufactured during such period to which such patent rights applied.

Sec. 8. That nothing in this Act shall affect any act done by virtue of the special measures taken during the war under legislative, executive, or administrative authority of the United States in regard to the rights of an enemy, or ally

of an enemy, as defined by the Trading with the Enemy Act of October 6, 1917, in patents for inventions and designs.

May 31, 1928, ch. 992, §§ 1-4, 45 Stat. 1012-1014----- Omitted

That any person who served honorably in the military or naval forces of the United States at any time between April 6, 1917, and November 11, 1918, both dates inclusive, and was subsequently honorably discharged, may within six months after the enactment of this Act, upon payment of a fee of \$20, make application to the Commissioner of Patents, comprising a verified statement, accompanied by supporting evidence of the following facts:

(A) That he is the inventor or discoverer of an invention or discovery for which a specified patent was granted prior to the 11th day of November, 1918, the original term of which remains unexpired at the time of the filing of the application.

(B) That between April 6, 1917, and November 11, 1918, and also at the time of the passage of this Act, he held, by ownership or contract, a right in said invention or under said patent or to income by way of royalty or otherwise therefrom, whereby an extension of the term of said patent would benefit him.

(C) That between April 6, 1917, and July 2, 1921, he was not receiving from said patent an income, or that his income therefrom was reduced by his said service.

(D) That at the time of his induction into the service he was making diligent effort to exploit the invention covered by his patent.

(E) The names of all persons, firms, or corporations, if any, holding at the time of the passage of this Act, by grant, transfer, license, or contract from him, any right or interest in the invention or discovery or under the patent, and their consent to the extension for which application is made, which shall be supported by an instrument, or instruments, executed by all such persons, firms, and corporations, evidencing their consent to such extension.

(F) The period of extension of the patent from the expiration of the original term thereof, for which he applies, which shall in no case exceed a further term of three times the length of his said service in the military or naval forces of the United States between the dates of April 6, 1917, and July 2, 1921, but exclusive of any reenlistment subsequent to November 11, 1918.

(G) That the licensee of a patent affected by this Act shall automatically be granted an extension of said license for the period of the extension on the same terms and conditions as contained in said existing license, thereby creating an equitable adjustment of the benefits of this Act.

(H) That such extension shall in no way impair the right of anyone who before the passage of this Act was bona fide in possession of any rights in patents or applications for patents conflicting with the rights in any patents extended under this Act, nor shall any extension granted under this Act impair the right of anyone who was lawfully manufacturing before the passage of this Act the invention covered by the extended patent.

Sec. 2. In the case of a veteran, as described in paragraph 1 of this Act, who dies, or has died, or who becomes insane or unable to act, which veteran owned an interest as described in this Act in said patent at the time of his death or at the time he was declared mentally incompetent or became unable to act before said extension is granted, such application may be filed or proceeded with by his legal representatives substantially as provided in section 4896 of the Revised Statutes of the United States (United States Code, title 35, section 46), as amended, with respect to proceedings in such cases for obtaining a patent.

Sec. 3. On the filing of such application the Commissioner of Patents shall cause an examination thereof to be made, and if, on such examination, it shall appear that such application conforms, or by amendment or supplement is made to conform, to the requirements of section 1 of this Act, the commissioner shall cause notice of such application to be published at least once in the Official Gazette. Any person who believes that he would be injured by such extension may within forty-five days from such publication oppose the same on the ground that any of the statements of the application for extension required by section 1 of this Act is not true in fact, which said notice of opposition shall be verified before an officer authorized by the laws of any State or Territory or the District of Columbia to administer oaths. In all cases where notice of opposition is filed the Commissioner of Patents shall notify the applicant for extension thereof and set a day of hearing. If after such hearing the Commissioner of Patents is of the opinion that such extension should not be granted, he may deny the application therefor, stating in writing his reasons for such denial. Where an extension is refused the applicant therefor shall have the same remedy by appeal from the decision of the commissioner as is now provided by law where an application for patent is refused. If no opposition to the grant of the extension is filed, or if, after opposition is filed, it shall be decided that the applicant is entitled to the extension asked for, the Commissioner of Patents shall issue a certificate that the term of said patent is extended for the additional period for which application has been made as aforesaid, and shall cause notice of such extension to be published in the Official Gazette and marked upon copies of the patent for sale by the Patent Office, in such manner as the commissioner may determine.

Sec. 4. Thereupon said patent shall have the same force and effect in law as though it had been originally granted for seventeen years plus the term of such

extension: *Provided, however,* That in any action, at law or in equity, for infringement after the expiration of seventeen years from the grant of the patent and during the period of such extension, the defendant may plead the general issue, and having given notice in writing to the plaintiff or his attorney thirty days before, may prove on trial that any of the statements of the application for extension required by section 1 of this Act is not true in fact; and if any one or more of such statements shall be found untrue in fact, judgment shall be rendered for the defendant, with costs: *Provided further,* That no person whose patent shall be extended under the provisions of this Act shall be permitted to make any claim for damages against the United States for the period of the extension, and the rights of the United States shall remain in all respects as if these patents had not been extended.

(b) The provision of subsection (a) of this section shall be deemed to be in effect as of September 1, 1948.

Feb. 1, 1952, ch. 4, §§ 1-9, 11, 12, 66 Stat. 3-6

T. 35, §§ 181-188

That whenever publication or disclosure by the grant of a patent or an invention in which the Government has a property interest might, in the opinion of the head of the interested Government agency, be detrimental to the national security, the Secretary of Commerce upon being so notified shall order that the invention be kept secret and shall withhold the grant of a patent therefor under the conditions set forth hereinafter.

Whenever the publication or disclosure of an invention by the granting of a patent, in which the Government does not have a property interest, might, in the opinion of the Secretary of Commerce, be detrimental to the national security, he shall make the application for patent in which such invention is disclosed available for inspection to the Atomic Energy Commission, the Secretary of Defense, and the chief officer of any other department or agency of the Government designated by the President as a defense agency of the United States.

Each individual to whom the application is disclosed shall sign a dated acknowledgment thereof, which acknowledgment shall be entered in the file of the application. If, in the opinion of the Atomic Energy Commission, the Secretary of a Defense Department, or the chief officer of another department or agency so designated, the publication or disclosure of the invention by the granting of a patent therefor would be detrimental to the national security, the Atomic Energy Commission, the Secretary of a Defense Department, or such other chief officer shall notify the Secretary of Commerce and the Secretary of Commerce shall order that the invention be kept secret and shall withhold the grant of a patent for such period as the national interest requires, and notify the applicant thereof. Upon proper showing by the head of the department or agency who caused the secrecy order to be issued that the examination of the application might jeopardize the national interest, the Secretary of Commerce shall thereupon maintain the application in a sealed condition and notify the applicant thereof. The owner of an application which has been placed under a secrecy order shall have a right to appeal from the order to the Secretary of Commerce under rules prescribed by him.

An invention shall not be ordered kept secret and the grant of a patent withheld for a period of not more than one year. The Secretary of Commerce shall renew the order at the end thereof, or at the end of any renewal period, for additional periods of one year upon notification by the head of the department or the chief officer of the agency who caused the order to be issued that an affirmative determination has been made that the national interest continues so to require. An order in effect, or issued, during a time when the United States is at war, shall remain in effect for the duration of hostilities and one year following cessation of hostilities. An order in effect, or issued, during a national emergency declared by the President shall remain in effect for the duration of the national emergency and six months thereafter. The Secretary of Commerce may rescind any order upon notification by the heads of the departments and the chief officers of the agencies who caused the order to be issued that the publication or disclosure of the invention is no longer deemed detrimental to the national security.

Sec. 2. The invention disclosed in an application for patent subject to an order made pursuant to section 1 hereof may be held abandoned upon its being established by the Secretary of Commerce that in violation of said order the invention has been published or disclosed or that an application for a patent therefor has been filed in a foreign country by the inventor, his successors, assigns, or legal representatives, or anyone in privity with him or them, without the consent of the Secretary of Commerce. The abandonment shall be held to have occurred as of the time of violation. The consent of the Secretary of Commerce shall not be given without the concurrence of the heads of the departments and the chief officers of the agencies who caused the order to be issued. A holding of abandon-

ment shall constitute forfeiture by the applicant, his successors, assigns, or legal representatives, or anyone in privity with him or them, of all claims against the United States based upon such invention.

SEC. 3. An applicant, his successors, assigns, or legal representatives, whose patent is withheld as herein provided, shall have the right, beginning at the date the applicant is notified that, except for such order, his application is otherwise in condition for allowance, or the effective date of this Act, whichever is later, and ending six years after a patent is issued thereon, to apply to the head of any department or agency who caused the order to be issued for compensation for the damage caused by the order of secrecy and/or for the use of the invention by the Government, resulting from his disclosure. The right to compensation for use shall begin on the date of the first use of the invention by the Government. The head of the department or agency is authorized, upon the presentation of claim, to enter into an agreement with the applicant, his successors, assigns, or legal representatives, in full settlement for the damage and/or use. This settlement agreement shall be conclusive for all purposes notwithstanding any other provision of law to the contrary. If full settlement of the claim cannot be effected, the head of the department or agency may award and pay to such applicant, his successors, assigns, or legal representatives, a sum not exceeding 75 per centum of the sum which the head of the department or agency considers just compensation for the damage and/or use. A claimant may bring suit against the United States in the Court of Claims or in the District Court of the United States for the district in which such claimant is a resident for an amount which when added to the award shall constitute just compensation for the damage and/or use of the invention by the Government. The owner of any patent issued upon an application that was subject to a secrecy order issued pursuant to section 1 hereof, who did not apply for compensation as above provided, shall have the right, after the date of issuance of such patent, to bring suit in the Court of Claims for just compensation for the damage caused by reason of the order of secrecy and/or use by the Government of the invention resulting from his disclosure. The right to compensation for use shall begin on the date of the first use of the invention by the Government. In a suit under the provisions of this section, and in negotiations concerning settlement of a claim, the United States may avail itself of all defenses it may plead in an action under title 28, United States Code, section 1493, as amended. This section shall not confer a right of action on anyone or his successors, assigns, or legal representatives who, while in the full-time employment or service of the United States, discovered, invented, or developed the invention on which the claim is based.

SEC. 4. Except when authorized by a license obtained from the Secretary of Commerce a person shall not file or cause or authorize to be filed in any foreign country prior to six months after filing in the United States an application for patent or for the registration of a utility model, industrial design, or model in respect of an invention made in this country. A license shall not be granted with respect to an invention subject to an order issued by the Secretary of Commerce pursuant to section 1 hereof without the concurrence of the head of the department and the chief officers of the agencies who caused the order to be issued. The license may be granted retroactively where an application has been inadvertently filed abroad and the application does not disclose an invention within the categories prescribed under section 1 hereof.

The term "application" when used in this Act includes applications and any modifications, amendments, or supplements thereto, or divisions thereof.

SEC. 5. Notwithstanding any other provisions of law any person, and his successors, assigns, or legal representatives, shall not receive a United States patent for an invention if that person, or his successors, assigns, or legal representatives shall, without procuring the license prescribed in section 4 hereof, have made, or consented to or assisted another's making, application in a foreign country for a patent or for the registration of a utility model, industrial design, or model in respect of the invention. A United States patent issued to such person, his successors, assigns, or legal representatives shall be invalid.

SEC. 6. Whoever, during the period or periods of time an invention has been ordered to be kept secret and the grant of a patent thereon withheld pursuant to section 1 hereof, shall, with knowledge of such order and without due authorization, willfully publish or disclose or authorize or cause to be published or disclosed the invention, or material information with respect thereto, or whoever, in violation of the provisions of section 4 hereof, shall file or cause or authorize to be filed in any foreign country an application for patent or for the registration of a utility

model, industrial design, or model in respect of any invention made in the United States, shall, upon conviction, be fined not more than \$10,000 or imprisoned for not more than two years, or both.

SEC. 7. The prohibitions and penalties of this Act shall not apply to any officer or agent of the United States acting within the scope of his authority, nor to any person acting upon his written instructions or permission.

SEC. 8. The Atomic Energy Commission, the Secretary of a defense department, the chief officer of any other department or agency of the Government designated by the President as a defense agency of the United States, and the Secretary of Commerce, may separately issue rules and regulations to enable the respective department or agency to carry out the provisions of this Act, and may delegate any power conferred by this Act.

SEC. 9. If any provision of this Act or of any section hereof shall be held invalid, the remainder of the Act shall not be affected thereby.

SEC. 11. Nothing in this Act shall be construed to alter, amend, revoke, repeal, or otherwise affect the provisions of the Atomic Energy Act of 1946 (60 Stat. 755), as amended.

SEC. 12. This Act may be cited as the "Invention Secrecy Act of 1951".
