Teaching and Learning at Magister
Lvcentinvs:
Creating Synergy !!

You need partners and collaborators and
You need to manage it.

Universities

Law firms

Industrial Property Agencies

Pat & TM Offices.

Industry

International Organizations
Advantages created through symbiosis.

- A wide variety of aspects of IP can be studied in depth.
- Specialized experts provide “1st class materials”.
- Exposure of students to different personal and institutional views and approaches.
- Flexibility to evolution of IP law.
- Adjusting the application of different teaching methods.
Advantages created through symbiosis.

- Information flows.
- Lecturers are a source of innovation.
  - 1st hand “market information”. Shaping the programme towards market needs.

- A dynamic paving the way towards: Institutional Networking
V. Educational Networking in Europe.

• European Intellectual Property Institutes Network (EIPIN).
• QMIPRI (London), CEIPI (Strasbourg), NDS IP (Zurich), ML (Alicante), MIPLC (Munich), U. Utrecht.
  – Working in common in a European arena under a “quality trademark”.
  – Exploiting mutual competitive “advantages”.
  – Information flows IP education innovation forum.
  – Favouring further networking.
Thank you for your attention.

IV. Steering the Boat: Academic Management Resources

• 4 Academic “Coordinators”
  – Tutors and “guardians” of the coherence of the course.

• 2 Course Assistants.
  – Facilitate lecturer-student communication.

• Technical Means.

• Quality Control
WEB-DOCENTE (ML Academic Web)

• A framework for interaction.
  – Lecturers, students, coordinators.
  – Eliminates problems of asynchronism and distance.
  – Allows efficient, time-saving provision of class materials.

• Center for student resources
  – Syllabus
  – Materials
  – Agenda
  – Links
  – Course notices.
Quality Control.

• Relevant role of Alumni Association
• Quality is controled:
  – Lecture by lecture (communication skills, materials, relevancy of subject).
  – Specialized modules and advanced seminars (orientation, foreseen utility in practice).
  – Overall result.
  – On-the-job training (students, firms).
