INTRODUCTION.

1.

The first statutory provision relating to interferences was that of the Act of 1793, Chap. XI, Section 8, which provided that interfering applications should be submitted to arbitration, and established a rule for the selection of the arbitrators.

There was no further legislation on the subject until the Act of 1836, which established the United States Patent Office, with the Commissioner of Patents as its head, and which provided in Section 8 for a form of procedure in the Patent Office in cases of interferences.

Section 16 of the same act gave a remedy by bill in equity on an adverse decision of the Board of Examiners in the case of an interfering application and an unexpired patent.

The Act of 1870 repealed that of 1836 and re-enacted in Sections 42 and 46 the substance of Section 8 of 1836. To these correspond Sections 4904 and 4909 of the Revised Statutes now in force.

2. THE CAVEAT.

The Act of 1836 also made provision, in Section 12, for the filing of a caveat, and for notification to the caveator of a conflicting application.

The Act of March 2, 1861, Section 9, further enlarged the 12th Section of the Act of 1836.

These provisions were repeated in the Act of 1870, Section 40, and are now embodied in Section 4902 of the Revised Statutes.

3. RULES OF THE PATENT OFFICE.

The Act of 1839, Section 12, conferred on the Commissioner of Patents the authority required for the making of regulations in respect to the taking of evidence to be used in contested cases before him; this power was further enlarged by the Act of March 2, 1861, Section 1.

These provisions were re-enacted in Section 43 of the Act of 1870, and are now embodied in Section 4905 of the Revised Statutes.
INTRODUCTION.

The Act of March 2, 1861, Section 2, established a board of examiners-in-chief, and provided that they should be governed in their action by the rules to be prescribed by the Commissioner of Patents.

The Act of 1870 greatly enlarged this power, and in its 19th Section authorized the Commissioner, subject to the approval of the Secretary of the Interior, to establish rules and regulations for the conduct of proceedings in the Patent Office.

It is from this enactment, repeated in Section 483 of the Revised Statutes, that the accompanying rules derive their force.

The conclusiveness of the Patent Office Rules has been considered in:

O'Hara v. Hawes, 1859, Morsell, J. Law's Digest 96.
Dyson, ex parte 1860, Dunlop, J. Ibid 96.

The various Sections of the Revised Statutes relating to interference cases, other than those of conflicting patents, are as follows:

Szc. 4002. Any citizen of the United States who makes any new invention or discovery, and desires further time to mature the same, may, on payment of the fees required by law, file in the Patent Office a caveat setting forth the design thereof, and of its distinguishing characteristics, and praying protection of his right until he shall have matured his invention. Such caveat shall be filed in the confidential archives of the office and preserved in secrecy, and shall be operative for the term of one year from the filing thereof; and if application is made within the year by any other person for a patent with which such caveat would in any manner interfere, the Commissioner shall deposit the description, specification, drawings, and model of such application in like manner in the confidential archives of the office, and give notice thereof, by mail, to the person by whom the caveat was filed. If such person desires to avail himself of his caveat, he shall file his description, specifications, drawings, and model within three months from the time of placing the notice in the post-office in Washington, with the usual time required for transmitting it to the caveator added thereto; which time shall be indorsed on the notice. An alien shall have the privilege herein granted, if he has resi-

...ed in the United States one year next preceding the filing of his caveat, and has made oath of his intention to become a citizen.

Sec. 4904. Whenever an application is made for a patent which in the opinion of the Commissioner, would interfere with any pending application, or with any unexpired patent, he shall give notice thereof to the applicants, or applicant and patentee, as the case may be, and shall direct the primary examiner to proceed to determine the question of priority of invention. And the Commissioner may issue a patent to the party who is adjudged the prior inventor, unless the adverse party appeals from the decision of the primary examiner, or of the board of examiners-in-chief, as the case may be, within such time, not less than twenty days, as the Commissioner shall prescribe.

Sec. 4905. The Commissioner of Patents may establish rules for taking affidavits and depositions required in cases pending in the Patent Office, and such affidavits and depositions may be taken before any officer authorized by law to take depositions to be used in the courts of the United States or of the State where the officer resides.

Sec. 4906. The clerk of any court of the United States, for any district or Territory wherein testimony is to be taken for use in any contested case pending in the Patent Office, shall, upon the application of any party thereto, or of his agent or attorney, issue a subpoena for any witness residing or being within such district or Territory, commanding him to appear and testify before any officer in such district or Territory authorized to take depositions and affidavits, at any time and place in the subpoena stated. But no witness shall be required to attend at any place more than forty miles from the place where the subpoena is served upon him.

Sec. 4909. Every applicant for a patent or for the re-issue of a patent, any of the claims of which have been twice rejected, and every party to an interference, may appeal from the decision of the primary examiner, or of the examiner in charge of interferences in such case, to the board of examiners-in-chief; having once paid the fee for such appeal.

Sec. 4910. If such party is dissatisfied with the decision of the examiners-in-chief, he may, on payment of the fee prescribed, appeal to the Commissioner in person.
INTRODUCTION.

Sec. 4911. If such party, except a party to an interference, is dissatisfied with the decision of the Commissioner, he may appeal to the Supreme Court of the District of Columbia, sitting in banc.

Sec. 4915. Whenever a patent on application is refused, either by the Commissioner of Patents or by the Supreme Court of the District of Columbia upon appeal from the Commissioner, the applicant may have remedy by bill in equity; and the court having cognizance thereof, on notice to adverse parties and other due proceedings had, may adjudge that such applicant is entitled, according to law, to receive a patent for his invention, as specified in his claim, or for any part thereof, as the facts in the case may appear. And such adjudication, if it be in favor of the right of the applicant, shall authorize the Commissioner to issue such patent on the applicant filing in the Patent Office a copy of the adjudication, and otherwise complying with the requirements of law. In all cases, where there is no opposing party, a copy of the bill shall be served on the Commissioner; and all the expenses of the proceedings shall be paid by the applicant, whether the final decision is in his favor or not. [See §629.]

4. EDITIONS OF THE RULES.

It is said that in 1830 the Secretary of State issued a set of instructions relating to applications for patents, and as early as 1828 we find in the Franklin Journal 2d S. V. 2, p. 332, directions of a semi-official nature for the guidance of persons applying for patents; but the first official publication of Patent Office Rules is undoubtedly that of 1836, which appeared simultaneously with, and was based upon, the new law of the same year. From then on various editions have been issued with which we are not concerned; that of November, 1869, being the last prior to the passage of the Act of July, 1870.

Simultaneously with the promulgation of the Act of 1870 came the first edition of the Rules referred to in this volume, that of July 15, 1870.

The edition of the following year introduced some slight changes, but the rules remained the same with but little material modification, even subsequent to the Revised Statutes in 1874, until the edition of December 1, 1879, which effected a complete revision of the rules. This Revision went into effect on the first of January, 1880, and was continued substantially
INTRODUCTION.

unaltered through subsequent editions, until the edition of April 18, 1888, which is now in force, and which embodies several changes. Generally speaking, the principal changes in the Rules relating to interferences, have been in phraseology, rather than in substance, and the great increase in number, eleven in the edition of July, 1870, as against forty in that of April 1888, is in appearance only; each rule of 1870 treating in separate paragraphs of several subjects, to each of which a separate rule and number has been allotted in the revision now in force.

TRADE MARKS.

A brief appendix relating to Trade Mark Interference Practice has been added.

The rules as given in the edition of April 18, 1888, are those to which the notes have been made; for the sake of convenience these have been traced backward and their changes noted as far as the Rules of July 15, 1870. All references to those of November 1869, have been omitted, because they are entirely obsolete, having arisen under the law as it was prior to the Act of 1870, but notes to the decisions rendered under them have been added in their proper places under existing rules, in order to cover all published decisions.

The decisions are only those rendered by the Commissioner of Patents, and his substitute, the Acting or Assistant Commissioner, and published in the Official Gazette of the Patent Office, and the annual volume of the Commissioner's Decisions. References to a number of MS. decisions have been added from the valuable and carefully prepared monthly digest edited by David A. Gourick, Esq., of Washington, D. C.

The decisions annotated and referred to are on questions of Practice only, and no reference has been made to questions of priority and evidence, as to which the rules are well established by the decisions of the Federal Courts.

The work having been printed as the signatures were set up, so that additions could not be made to it while going through the press, a supplement of additional notes and cases, classified as in the body of the book, has been added, down to Jan. 1, 1891.

Attention is also called to the various Indexes and Tables appended.

ANOTATED RULES OF PRACTICE
IN CASES OF INTERFERENCE
IN THE UNITED STATES PATENT OFFICE.
REVISED APRIL 16, 1888.

Commissioner’s Decisions—C. D.

Gourick’s Washington Digest—G.

93. An interference is a proceeding instituted for the purpose of determining the question of priority of invention between two or more parties claiming substantially the same patentable invention. The fact that one of the parties has already obtained a patent will not prevent an interference, for, although the Commissioner has no power to cancel a patent, he may grant another patent for the same invention to a person who proves to be the prior inventor.

HISTORY OF RULE

92 of XXII, XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, XII, like 93 of April 18, 1838.

51. Aug., 1878. An “interference” is a proceeding instituted for the purpose of determining the question of priority of invention between two or more parties claiming the same patentable subject matter.

52. Aug., 1878. The fact that one of the parties has already obtained a patent will not prevent an interference, for, although the Commissioner has no power to cancel a patent already issued, he may, if he finds that another person was the prior inventor, give him a patent also, and thus place both parties on an equal footing before the courts and the public.

51 of X, IX, VII, like 51, Aug., 1878.

51, Sept., 1875, like 51, Aug., 1878, and adds “It may also be resorted to for the purpose of procuring evidence, relating to the alleged abandonment or the public use of an invention.

51 of VI, V, IV, III, II, like 51 of Sept., 1875.

51 of July, 1870. An interference is an interlocutory proceeding for the purpose of determining which of two or more persons, each or either of whom claims to be the first inventor of a given device or combination, really made the invention first.

DECLARATION.

No interference will be declared:

—Between two applications for patents for foreign inventions not patented abroad. The first applicant is entitled to a patent. Lauber v. Crowell, 1879, C. D. 177; 16 O. G. 405.

—Between a patent and a patented division containing subordinate, non-conflicting claims withdrawn from the interfering original application, or between the patent and the re-issue application of said divisional patent. Disclaimer required. Lacroix v. Welsh, 1873, C. D. 155; 4 O. G. 526.

—Where the instruments are different in mode of operation. Gray v. Robertson, 1889, C. D. —; 50 O. G. 165, Mitchell.

—Where the claims are virtually for different devices. Fletcher v. Abraham, 1870, C. D. 26.

—Where neither applicant is entitled to a claim broad enough to make an issue. Bovey v. Graham, 1870, C. D. 129.

—Where one of the applications (rejected by the Board of Examiners in Chief) has passed beyond primary examiner's jurisdiction. Duthie in re, 1871, C. D. 85.

—Between a patent and an unpatentable application. Meucci ex parte, 1890, C. D. —; 51 O. G. 299, Mitchell.

Practice in Interference, 1877, C. D. 121; 12 O. G. 949.

When a 2d interference with a successful party will NOT be declared

—Hovey v. Muller, 1873, C. D. 26; 3 O. G. 149.
Practice in Interference Cases, 1877, C. D. 121; 12 O. G. 949.

Consolidation of interferences:

The issue in interference cases is solely that of priority of invention:
DECLARATION.

—Foster v. Fowle, 1869, C. D. 35.
Crane & Rogers, 1871, C. D. 230.
Smith v. Perry, 1876, C. D. 12; 9 O. G. 688.
Miller v. Miles, 1877, C. D. 15; 11 O. G. 197.

—It is not as to false suggestions in patentee's oath.
Gillen ex parte, 1877, C. D. 20; 11 O. G. 419.

—It is not for the enforcement or determination of title.

—It is not prospective infringement, where the conflicting claims do not cover the same subject matter.
Hotchkiss v. Smith & Post, June 25, 1890, Fisher, Asst. Com., 2 G. 42

Relation of the conflicting inventions:

—They must sustain a hostile relation to each other.

—Must be that of (1) identity, or (2) equivalence, or (3) specific difference, or (4) generic difference.

—Mere formal and non-essential differences must be disregarded.

—The device in interference must be operative.

—It is a question of priority, rather than of title.

—The ground of an interference is that each claims substantially the same invention; and not that the claims of one party would be subordinate to those of the other.

—Subjects of interferences are not words but things, and the same words must mean the same things.

—Conflicting combinations.

—Conflicting process and product.
DECLARATION:

—Conflicting processes.

—Art and apparatus in conflict with certain constituent elements.

—Apparatus not in conflict with art.

—Species with genus.
Gardner ex parte, 1880, C. D. 110; 17 O. G. 626.
Dewey v. Thomson, April 23, 1890, Mitchell, MS., 2 G. 27.

—Application for mechanical invention and Design Patent.
Crosette v. Flagg, May 21, 1880, MS., Marble.

Note.—The practice of declaring an interference between a design and a mechanical invention has been discontinued since 1883, on the ground that they are statutorily different subjects-matter.—L.

Construction of the issue:

—Particular issues construed.
Duthie v. Caslear, 1872, C. D. 50; 1 O. G. 255.

—When the construction of the issue has been acquiesced in and acted upon, it must be held complete.

Note.—See notes under Rule 122, April 18, 1888.

1887—93.

When declared. 94. Interferences will be declared in the following cases, when all the parties claim substantially the same patentable invention:

Original applications. (1) Between two or more original applications containing conflicting claims.

Original applications and unexpired patents. (2) Between an original application and an unexpired patent containing conflicting claims, when the applicant, having been rejected on the patent, shall file an affidavit that he made the invention before the patentee's application was filed.
(3) Between an original application and an application for the re-issue of a patent granted during the pendency of such original application.

(4) Between an original application and a re-issue application, when the original applicant shall file an affidavit showing that he made the invention before the patentee's original application was filed.

(5) Between two or more applications for the re-issue of patents granted on applications pending at the same time.

(6) Between two or more applications for the re-issue of patents granted on applications not pending at the same time, when the applicant for re-issue of the later patent shall file an affidavit showing that he made the invention before the application was filed on which the earlier patent was granted.

(7) Between a re-issue application and an unexpired patent, if the original applications were pending at the same time, and the re-issue applicant shall file an affidavit showing that he made the invention before the original application of the other patentee was filed.

(8) Between an application for re-issue of a later unexpired patent and an earlier unexpired patent granted before the original application of the later patent was filed, if the re-issue applicant shall file an affidavit showing that he made the invention before the original application of the earlier patent was filed.

HISTORY OF RULE, ¶ (1).

93. March 9, 1887. (1) Between two or more original applications.

93. ¶ 1 of XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, XII, like 93 of March 9, 1887.

51. Aug., 1878. "First. When two or more parties have applications pending before the office at the same time, and their respective claims conflict in whole or in part. Second. When two or more applications are pending at the same time, in each of which a like patentable invention is shown or described, and claimed in one, though not specifically claimed in all of them."

51. Aug., 1871. "First. When the parties have pending applications before the office at the same time, both or all the parties claiming to be the first inventor of the same thing. Second. When two applications are pending at the same time, which describe the same device, but in only one of which it is specifically claimed, it may still become necessary to declare an interference. Third. When an invention is claimed in a renewed application which is shown or claimed in an application filed or patent granted prior to the filing of such renewed application."

51. July 15, 1870. "First. When the parties have pending applications before the office at the same time, both or all the parties claiming to be the inventor of the same thing. Second. When an applicant having been rejected upon the prior unexpired patent or the prior application of another claims to have made the invention before the prior applicant or patentee. Third. (As in 51 of Aug., 1871.) Sixth. The office reserves to itself the right, when two applications are pending at the same time, in one of which a device may be described which is claimed in the other to declare an interference to determine with whom is priority of invention, without reference to the order in which such applications may have been filed.

—Between conflicting applications. Abraham v. Fletcher, 1869, C. D. 50.

—Between a renewed application of an abandoned application and an application filed intermediate the abandonment and renewal. Golding, ex parte, 1875, C. D. 98; 8 O. G. 141.

—Between a renewal of a forfeited application and a new successful party filed intermediate the forfeiture and renewal. Practice in Interference Case, 1877, C. D. 121; 12 O. G. 949.

—Between pending applications, one showing, the other claiming, the invention. Bell v. Gray, 1879, C. D. 42; 15 O. G. 776. Smith ex parte, 1880, C. D. 77; 17 O. G. 447.

—Between two pending applications, where the invention in one case was made abroad and imported for public use. Thomas v. Reese, 1889, C. D. 12; 17 O. G. 193.

—Between conflicting applications, declared nunc pro tunc. Marston, ex parte, 1892, C. D. 1; 21 O. G. 633.

Burden of proof. Testimony—by whom first taken.

Under Rules 7, 1878, and 57, 1878, the first to file a complete application and first fee is deemed first inventor, and the testimony of the other parties is to be taken first.

Where the application in interference is a division of one previously filed, the date of the original must be considered to determine on whom rests the burden of proof.

Reasons for determining on whom rests the burden of proof in case of two applications.

Where the last to file his application asserts that he communicated to the first to file how to construct the machine, and was using due diligence, etc., the burden of proof rested upon the last to file. How discharged.

Burden of proof is on applicant for mechanical patent, although his design patent first shows the invention.

Where A had two applications in interference, in one of which he was senior and in the other junior applicant, and in his preliminary statement set up public use to bar all parties, held that A take evidence first and then B follow.

118. Times will be assigned in which the junior applicant shall complete his testimony in chief, and in which the other party shall complete the testimony on his side, and a further time in which the junior applicant may take rebutting testimony; but he shall take no other testimony. If there be more than two parties to the interference, the times for taking testimony will be so arranged that each shall have an opportunity to prove his case against prior applicants and to rebut their evidence, and also to meet the evidence of junior applicants.

Editions of August 1, 1871, and July 15, 1870, contain no provision corresponding to Rule 59 of VIII.

55. July 15, 1870. In cases of interference, parties have the same remedies by appeal as other applicants, to the Examiners-in-Chief, and to the Commissioner, but no appeal lies, in such cases from the decisions of the Commissioner. †For Rule 48, August, 1878, see under Rule 146, April 18, 1888.
HISTORY OF § 2.

118. March 9, 1887. From a decision affirming the patentability of the claim or the applicant's right to make the same no appeal can be taken.

118 of XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, like 118, § 2, of March 9, 1887.

Edition of December 1, 1879, contains no such provision.

59. August, 1878. * * *; but if the examiner should decide that the subject-matter is not patentable in view of the state of the art, the interference will be dissolved, and the matter decided upon can be proceeded with ex parte.

59 X, IX, VIII, like 59 of August, 1878.
Edition of September 1, 1875, and prior editions, contain no such provision.

An appeal from the Examiner of Interferences refusing the prior inventor his patent because of public use and sale, brings up question of abandonment and not priority.

To raise the question of priority, adverse party must appeal.—Ibid.

On examiner's decision of forfeiture by negligence to opponent first to reduce to practice, appeal brings up both questions.—Ibid.

On appeal to Examiners-in-Chief, presumption is in favor of finding of Examiner of Interferences; on appeal to Commissioner in favor of concurrent findings.

Allowance of reasonable time to appeal before dissolution, on rejection of claim in view of new references by Primary Examiner.

When dissatisfied with decision on motion for dissolution, remedy is by appeal or motion for rehearing, not a new motion on same grounds.

Duty of Commissioner on appeal in view of concurrent finding, awarding priority to a patentee.

An appeal lies:

From decision of Examiners-in-Chief or Examiner of Interferences on motion to dissolve, based on non-interference or irregularity, to the Commissioner.

Duthie v. Casilear, 1870, C. D. 90.

From a decision of the Office to the Supreme Court (D. C.) upon any question arising upon an interference except priority.

---From the Examiner of Interferences dissolving a second interference between the same parties on the same question to the Commissioner. Ground.

---To the Commissioner, from a dissolution based merely on the grounds that the inventions are different and no other.

---First to the Examiners-in-Chief, then to the Commissioner, when the question is as to the operativeness (the merits).—Ibid.

---By protest to the Commissioner from decision of Primary Examiner affirming patentability on motion to dissolve.

---To Board of Examiners-in-Chief from decision of Examiner of Interferences finding neither party original inventor. Both parties may appeal.

---To Commissioner from decision of Examiner of Interferences refusing to dissolve on any of the grounds in Rule 116, of July 13, 1886.

---To the Commissioner from a decision of the Primary Examiner granting or denying a motion to dissolve on the ground that no interference in fact exists.

No appeal can be taken:

---To the Commissioner upon motions denying the patentability of the subject matter.

---From the decision of the Examiners-in-Chief affirming the patentability.—Ibid.

---From the decision of the Primary Examiner denying the patentability or the right to make the claim, when the interference has been remanded and dissolved under rules 116, and 120, July 13, 1886.

---From the decision of the Examiner of Interferences, remanding a motion to dissolve for want of patentability. Why?

---To the Commissioner from a decision of the examiner upon a motion to dissolve involving the right to make the claim in issue.

---To the Commissioner from a decision upon a motion to dissolve except upon the ground that there is no interference, in fact, or irregularity.
APPEAL—CONCESSION OF PRIORITY. 53

---From the decision of the Commissioner in interference cases since Act July 8, 1870.
Little v. Lillie, 1876, C. D. 207; 10 O. G. 543.

---The faultiness of certain combination claims stating certain elements in general language in order to secure an interference, held sufficient warrant to dismiss an appeal.

---By inventor who had assigned his entire interest.
Martin v. Olney, 1876, C. D. 124; 9 O. G. 1107.

---To the Commissioner from Primary Examiner dissolving an interference because English patent produced in evidence of prior date is inoperative; it lies to Examiners-in-Chief.

---Where one of grounds of motion to dissolve was that applicant had no right to make the claim, the Commissioner refused to hear it on appeal.

---Limit of appeal where last day is a holiday.

---Statement of reasons of appeal required under Rule 147, April 18, 1888.

---Signing of appeal nunc pro tunc, by attorney having failed to file his power—ibid.

---The Examiner of Interferences has jurisdiction where notice to re-open is filed on last day of limit of appeal. The "day fixed" for the hearing is that designated in the motion and not the day on which actually had.

125. After the interference is finally declared, it will not, except as herein otherwise provided, be determined without judgment of priority founded either upon the testimony, or upon a written concession of priority by one of the parties, signed by the inventor himself, (and by the assignee, if any,) or upon a written declaration of abandonment of the application, as provided by Rule 171.*

* Rule 171, April 18, 1888. An abandoned application is one which has not been completed and prepared for examination within two years after the filing of the petition, or which the applicant has failed to prosecute within two years after any action therein, of which notice has been duly given (see Rules 31 and 77), or which the applicant has expressly abandoned by filing in the office a written declaration of abandonment, signed by himself (and assignee, if any), identifying his application by title of invention, serial number, and date of filing. (See Rule 69.)

Prosecution of an application to save it from abandonment must include such proper action as the condition of the case may require.
HISTORY OF RULE.

119. March 9, 1887. After the interference is, etc., (like 125 of April, 18, 1888) * * inventor himself, and also, in the case of an assignment, by the assignee, or upon a written declaration of abandonment of the application, as provided by Rule 165.*

119 of XXI, XX, XIX, like 119 of March 19, 1887.

119. August 12, 1884. After the interference is finally declared, it will not, etc., (like 119 of March 19, 1887) * * by the assignee.

119 of XVII, XVI, XV, XIV, XIII, like 119 of August 12, 1884.

119. December 1, 1879. After the interference is finally declared, it will not be determined without judgment of priority, founded upon the testimony, except as otherwise herein provided.

50. August, 1878. After the declaration of the interference proper, it will not be determined without judgment of priority, founded upon the testimony or the written concession of one of the parties.

50 of X, IX, VIII, like 50 of August, 1878.

50. September 1, 1875. If judgment be based upon a concession of priority by either of the parties, such concession must be in writing, and under the signature of the inventor himself; and if there has been an assignment, the assignee must join in the concession.

50 of VI, V, IV, III, II, like 50 of September 1, 1875.

50. July 15, 1870. Cases of interference will, when the issue is made up and the testimony taken, be tried before the examiner in charge of interferences. If an interference has been properly declared, it will not be dissolved without judgment of priority, founded upon the testimony or the written concession of one of the parties, unless the invention is found not to be patentable, or to have been abandoned, or that it has been in public use for more than two years prior to the application of either party, or that no interference in fact exists.

Concession of Priority. What is not:

--- A stipulation not valid unless signed by party himself.

---Stipulations of priority have no effect as estoppels.

Concession of priority:

--- It operates as an estoppel from declaring an interference on the same subject-matter.

--- A claim stricken out by disclaimer under Rule 51, 1878 (107, April 18, 1888), cannot after judgment by concession be restored.
Cobb, ex parte, 1879, C. D. 123; 16 O. G. 175.

*Rule 165, March 9, 1887, like 171, April 18, 1888, above.
It is binding upon all parties.

Coehran, in re, 1871, C. D., 78.

-- A concession of priority in an instrument relating to a prior interference held binding.

126. The examiner of interferences or the examiners-in-chief may, either before or in their decision on the question of priority, direct the attention of the Commissioner to any matter not relating to priority which may have come to their notice, and which, in their opinion, establishes the fact that no interference exists, or that there has been irregularity in declaring the same (Rule 122), or which amounts to a statutory bar to the grant of a patent to either of the parties for the claim or claims in interference. The Commissioner may, before judgment on the question of priority, suspend the interference and remand the case to the primary examiner for his consideration of the matters to which attention has been directed. From the decision of the examiner appeal may be taken as in other cases. If the case shall not be so remanded, the primary examiner will, after judgment, consider any matter affecting the rights of either party to a patent which may have been called to his attention, unless the same shall have been previously disposed of by the Commissioner.

HISTORY OF RULE.

120. March 9, 1887. In their decision of the question of priority, or before such decision, the Examiner of Interferences and the Examiners-in-Chief will direct the attention of the Commissioner to any matter not relating to priority which may have come to their notice, and which, in their opinion, establishes the fact that no interference exists, or that there has been irregularity in declaring the same (Rule 116*), or which amounts to a statutory bar to the grant of a patent to either of the parties for the claim or claims in interference. The Commissioner may, before judgment on the question of priority of invention, suspend the interference and remand the case to the Primary Examiner for his consideration of the matters to which attention has been directed, and his decision will be subject to appeal, as in other cases. If the case shall not be so remanded, the Primary Examiner will, after judgment, consider any matter affecting the rights of either party to a patent which may have been called to his attention, unless the same shall have been previously disposed of by the Commissioner.

120 of XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, like 120 of March 9, 1887.
120. December 1, 1879. In their decision of the question of priority, or before such decision, the Examiner of Interferences and the Examiners-in-Chief will direct the attention of the Commissioner to any fact not relating to priority, which may have been brought to their notice (by motion or otherwise,) and which, in their opinion, amounts to a statutory bar to the grant of a patent to either of the parties for the claim or claims in interference. The Commissioner may, before judgment on the question of priority of invention, suspend the interference, and remand the case to the Primary Examiner for the consideration of the statutory bar so suggested, subject to appeal to the Examiners-in-Chief, as in other cases. If the case shall not be so remanded, the Primary Examiner will, after judgment, consider and determine the same, unless it shall have been previously disposed of by the Commissioner.

59. August, 1878. In their decision of the question of priority, or before such decision, the Examiner of Interferences or the Examiners-in-Chief, as the case may be, will direct the attention of the Commissioner to any fact not relating to priority which may have come to their attention (by motion or otherwise,) and which in their opinion amounts to a statutory bar to the grant of a patent to either or both parties. After final judgment the Primary Examiner will consider and determine any such matter not previously disposed of by the Commissioner.

59 of X, IX, like 59 of August, 1878.

59. November 1, 1876. In their decision of the question of priority the Examiner of Interference, or the Examiners-in-Chief, etc., * * (as in 59 of August, 1878.)

59. September 1, 1875. If during the continuance of an interference, it shall appear that neither party is entitled to a patent by reason of abandonment, public use, or any other statutory bar, the Examiner of Interferences, or Examiners-in-Chief, as the case may be, will direct the attention of the Commissioner to the facts, either by a report, if before the hearing, or in the decision of the question of priority, if the interference comes to a regular hearing. The Commissioner, if in his judgment it is necessary, will then suspend the interference and remand the cases to the principal examiner for the determination of any of these questions.

59 of VI, like 59 of September 1, 1875.
Edition of September 1, 1873, and prior editions, contain no such provision.

127. A second interference will not be declared upon a new application for the same invention filed by either party. A decision will not be set aside after judgment, except in accordance with the principles governing the granting of new trials.

---May be made in so far as it related to subject-matter not common to both parties.

---Defeated party proceeds to vacate judgment by motion to dissolve. Absence of hearing insufficient reason.
Rogers v. Winssinger, April 5, 1890, Mitchell, M. S., 2 G. 28.

After expiration of limit of appeal, case gone to issue, and patent only to be delivered.  

On stipulations of parties with others or with self as assignee.  

Question of fact on motion for rehearing is whether the original decision was in conformity with the evidence; not whether it was clearly correct.

NEW REFERENCES—NEW PARTIES.

45 of X, IX, VIII, like 45 of Aug., 1878.

Edition of Sept., 1, 1875, and prior editions contain no such provision.

Interferences and extensions are the only "contested cases" recognized in the practice of the Patent Office:

146. In interference cases parties have the same remedy by appeal to the examiners-in-chief and to the Commissioner as in *ex parte* cases; but no appeal lies in such cases from the decision of the Commissioner. Defeated contestants in interferences may, however, have remedy by bill in equity.

**HISTORY OF RULE.**

141. March 3, 1887. In cases of interference parties, etc., (as in 146 of April 18, 1888,) * * * of the Commissioner.

55. July 15, 1870. In cases of interference, parties have the same remedies by appeal as other applicants, to the examiners-in-chief and to the Commissioner, but no appeal lies in such cases from the decision of the Commissioner.

--- The filing of a bill in equity by the defeated party will not operate to stay the issue of the patent to the successful contestant.

--- On appeal in interference cases under Act 1833, § 8, jurisdiction of justice of the Supreme Court of the District of Columbia extended to the question of abandonment or public use.

--- Conclusiveness of prior decision of appellate judge on a new interference, unless a different state of facts is shown.

--- No appeal lies from the decision of the Commissioner in interference cases since Act, July 8, 1870.

Little v. Lillie, 1876, C. D. 207; 10 O. G. 543.

--- A decree of the District Supreme Court on the question of patentability of applicant’s device cannot touch the question of priority as between his and other pending applications.

147. Appeals in interference cases must be accompanied by brief statements of the reasons therefor; and parties will be required to file briefs of their arguments before the day of hearing.

Printed briefs are required in all cases.
HEARINGS.

Reasons of appeal:

—The brief statement is not to be considered of the substance of the appeal.

HEARINGS AND INTERVIEWS.

151. Hearings will be had by the Commissioner at ten o'clock a.m., and by the board of examiners-in-chief and the examiner of interferences at one o'clock p.m., on the day appointed, unless some other hour be specially designated. If either party in a contested case, or the appellant in an ex parte case, appear at the proper time, he will be heard. After the day of hearing a contested case will not be taken up for oral argument except by consent of all parties. If the engagements of the tribunal having jurisdiction are such as to prevent the case from being taken up on the day of hearing, a new assignment will be made, or the case will be continued from day to day until heard. Unless it shall be otherwise ordered before the hearing begins, oral arguments will be limited to one hour for each party. After a contested case has been argued, nothing further relating thereto will be heard unless upon request of the tribunal having jurisdiction of the case; and all interviews for this purpose with parties in interest or their attorneys will be invariably denied.

If either party in a contested case, or the appellant in an ex parte case, appear at that time, he will be heard; but in contested cases no motions will be heard in the absence of the other party, except upon default after due notice; nor will a case be taken up for oral argument after the day of hearing, except by consent of both parties. If the engagements of the tribunal before whom the case is pending are such as to prevent its being taken up on the day of hearing, a new assignment will be made, or the case will be continued from day to day until heard. Unless otherwise ordered before the hearing begins, oral arguments will be limited to one hour for each counsel.
MOTIONS.

153. In contested cases reasonable notice of all motions, and copies of motion-papers and affidavits, must be served, as provided in Rule 154 (2). Proof of such service must be made before the motion will be entertained by the office. Motions will not be heard in the absence of either party except upon default after due notice. Motions will be heard in the first instance by the officer or tribunal before whom the particular case may be pending; but an appeal from the decision rendered may be taken on questions involving the merits of the case to the board of examiners-in-chief; on other questions, directly to the Commissioner. In original hearings, on motions, the moving parties shall have the right to make the opening and closing arguments. In contested cases the practice on points to which the rules shall not be applicable will conform, as nearly as possible, to that of the United States courts in equity proceedings.

TESTIMONY IN EXTENSIONS, INTERFERENCES AND OTHER CONTESTED CASES.

154. The following rules have been established for taking and transmitting testimony in extensions, interferences, and other contested cases:

(1) Before the depositions of witnesses are taken by either party due notice shall be given to the opposing party, as hereinafter provided, of the time when and place where the depositions will be taken, of the cause or matter in which they are to be used, and of the names and residences of the witnesses to be examined, and the opposing party shall have full opportunity, either in person or by attorney, to cross-examine the witnesses. If the opposing party shall attend the examination of witnesses not named in the notice, and shall either cross-examine such witnesses or fail to object to their examination, he shall be deemed to have waived his right to object to such examination for want of notice. Neither party shall take testimony in more than one place at the same time, nor so nearly at the same time that reasonable opportunity for travel from one place of examination to the other can not be had.

(2) The notice for taking testimony or for motions must be served (unless otherwise stipulated in an instrument in writing filed in the case) upon the attorney of record, if there be one, or, if there be no attorney of record, upon the adverse party. Reasonable time must be given therein for such adverse party to reach the place of examination. Service of such notice may be made in either of the following ways: (1) By delivering a copy of the notice to the adverse party or his attorney; (2) by leaving a copy at the usual place of business of the adverse party or with his attorney or with some one in his employment; (3) when such adverse party or his attorney has no usual place of business, by leaving a copy at his residence, with a member of his family over fourteen years of age and of discretion; (4) transmission by registered letter; (5) by express. Whenever it shall be satisfactorily shown to the Commissioner that neither of the above modes of obtaining or serving such notice is practicable, the notice may be published in the Official
Such notice shall, with sworn proof of the fact, time, and mode of service thereof, be attached to the deposition or depositions, whether the opposing party shall have cross-examined or not.

(3) Each witness before testifying shall be duly sworn according to law by the officer before whom his deposition shall be taken. The deposition shall be carefully read over by the witness, or by the officer to him, and shall then be subscribed by the witness in the presence of the officer. The officer shall annex to the deposition his certificate showing (1) the due administration of the oath by the officer to the witness before the commencement of his testimony; (2) the name of the person by whom the testimony was written out, and the fact that, if not written by the officer, it was written in his presence; (3) the presence or absence of the adverse party; (4) the place, day, and hour of commencing and taking the deposition; and (5) the fact that the officer was not connected by blood or marriage with either of the parties, nor interested, directly or indirectly, in the matter in controversy. The officer shall sign the certificate and affix thereto his seal of office, if he have such seal. He shall then, without delay, securely seal up all the evidence, notices, and paper exhibits, inscribe upon the envelope a certificate, giving the title of the case, the name of each witness, and the date of sealing, address the package, and forward the same to the Commissioner of Patents. If the weight or bulk of an exhibit shall exclude it from the envelope, it shall be authenticated by the officer and transmitted in a separate package, marked and addressed as above provided.

(4) In cases of extension, when no opposition shall be made, ex parte testimony will be received from the applicant; and such testimony as may have been taken by the applicant prior to notice of opposition will be received, unless taken within thirty days after filing the petition for the extension. But upon receiving notice of opposition the applicant shall immediately give notice to the opposing party or parties of the names and residences of the witnesses whose testimony shall have been thus taken.
(5) If a party shall be unable to take any testimony within the time limited and desires an extension for such purpose he must file a motion, accompanied by a statement under oath setting forth specifically the reasons why such testimony has not been taken, and distinctly averring that such motion is made in good faith, and not for the purposes of delay. If either party shall be unable to procure the testimony of a witness or witnesses within the time limited, and desires an extension for such purpose, he must file a motion, accompanied by a statement under oath setting forth the cause of such inability, the name or names of such witness or witnesses, the facts expected to be proved by such witness or witnesses, the steps which have been taken to procure such testimony, and the dates on which efforts have been made to procure it. (See Rule 153.)

(6) When a party relies upon a caveat to establish the date of his invention, the caveat itself, or a certified copy thereof, must be filed in evidence, with due notice to the opposite party.

(7) Upon notice given to the opposite party before the closing of the testimony, any official record, and any special matter contained in a printed publication, if competent evidence and pertinent to the issue, may be used as evidence at the hearing.

155. The pages of each deposition must be numbered consecutively, and the name of the witness plainly and conspicuously written at the top of each page. The testimony must be written upon legal-cap or foolscap paper, with a wide margin on the left-hand side of the page, and with the writing on one side only of the sheet.

156. The testimony will be taken in answer to interrogatories, with the questions and answers committed to writing in their regular order by the officer, or, in his presence, by some person not interested in the case, either as a party thereto or as attorney. But, with the written consent of the parties, the depositions may be written out by other persons
in the presence of the officer. No officer who is connected by blood or marriage with either of the parties, or interested, directly or indirectly, in the matter in controversy, either as counsel, attorney, agent, or otherwise, is competent to take depositions, unless with the written consent of all the parties.

157. By leave of the Commissioner, first obtained, testimony taken in an interference proceeding may be used in any other or subsequent interference proceeding, so far as relevant and material, subject, however, to the right of any contesting party to recall witnesses whose depositions have been taken, and to take other testimony in rebuttal of the depositions.

158. By leave of the Commissioner, first obtained, testimony may be taken in foreign countries, upon complying with the following requirements:

(1) Such permission will be granted only upon motion duly made. (See Rule 153.) The motion must designate a place for the examination of the witnesses at which an officer duly qualified to take testimony under the laws of the United States in a foreign country shall reside, and it must be accompanied by a statement under oath that the motion is made in good faith, and not for purposes of delay or of vexing or harassing any party to the case; it must also set forth the names of the witnesses, the particular facts to which it is expected each will testify; and the grounds on which is based the belief that each will so testify.

(2) It must appear that the testimony desired is material and competent, and that it cannot be taken in this country at all, or cannot be taken here without hardship and injury to the moving party greatly exceeding that to which the opposite party will be exposed by the taking of such testimony abroad.

(3) Upon the granting of such motion, a time will be set within which the moving party shall file in duplicate the interrogatories to be propounded to each witness, and serve a copy of the same upon each adverse party, who may, within a designated time, file, in duplicate, cross-interrogatories. Objections to any of the interrogatories or cross-interrogatories may be filed at any time before the depositions are taken, and such objections will be considered and determined upon the hearing of the case.
(4) As soon as the interrogatories and cross interrogatories are decided to be in proper form, the Commissioner will cause them to be forwarded to the proper officer, with the request that, upon payment of, or satisfactory security for, his official fees, he notify the witnesses named to appear before him within a designated time and make answer thereto under oath; and that he reduce their answers to writing, and transmit the same, under his official seal and signature, to the Commissioner of Patents, with the certificate prescribed in Rule 154 (3).

(5) By stipulation of the parties the requirements of paragraph 3 as to written interrogatories and cross interrogatories may be dispensed with, and the testimony may be taken before the proper officer upon oral interrogatories by the parties or their agents.

(6) Unless false swearing in the giving of such testimony before the officer taking it shall be punishable as perjury under the laws of the foreign state where it shall be taken, it will not stand on the same footing in the Patent Office as testimony duly taken in the United States; but its weight in each case will be determined by the tribunal having jurisdiction of such case.

—Admissibility of testimony taken abroad prior to the making of this rule.

—Motion for a commission refused.
Affirmed. Ibid., 1883, C. D. 111; 23 O. G. 1832, Teller, Sec.

—Motion for a commission granted.
Leeman v. Smith, June 27, 1890, Fisher, Asst. Com., 2 G. 44.

159. Evidence touching the matter at issue will not be considered on the hearing which shall not have been taken and filed in compliance with these rules. But notice will not be taken of merely formal or technical objections which shall not appear to have wrought a substantial injury to the party raising them; and in case of such injury it must be made to appear that, as soon as the party became aware of the ground of objection, he gave notice thereof to the office,
and also to the opposite party, informing him at the same time that, unless it should be removed, he (the objector) should urge his objection at the hearing. This rule is not to be so construed as to modify established rules of evidence, which will be applied strictly in all practice before the office.

—Motion to strike out testimony relating to date of invention abroad. allowed.
Tucker & Davis, 1872, C. D. 188; Chamber & Mendsham v. Duncan, 1876, C. D. 82; 9 O. G. 741.

—Motion to strike out testimony of wife, as not a competent witness for her husband.
Allowed.
Allowed, authorities reviewed.
Refused.

—Failure to object at proper time a waiver.
Michael v. Kenney, Sr., 1870, C. D. 140.

Motion to strike out testimony allowed:

—Where it tended to establish a date of invention prior to that set up in preliminary statement.

—Where it related to a patent not first introduced in evidence, nor a certified copy thereof.

—Where the testimony was not pertinent to the issue of priority.
Smith v. Perry et al., 1876, C. D. 12; 9 O. G. 688.

Refused:

—Where the testimony was in rebuttal of application oath.

—Where, on witness' refusal to answer, the cross-examination had none the less been proceeded with.

—Where the failure to cross-examine witness was due to the party himself.

—Where witness had refused to answer improper cross interrogatories, and which had also been forbidden by the Court.
SUBPOENAS—TESTIMONY.

—Proper practice as to form and time of notice of motion. Milligan v. Niedringhaus, 1887, C. D. 1; 38 O. G. 1:3.

—Practice as to decision of Examiner of Interferences on such motion. Proper time for motion. Wright v. Daggett, 1888, C. D. 116; 44 O. G. 943.

—The act of the Commissioner in deciding such motion is judicial, and the Secretary of the Interior has no appeal jurisdiction. Houston v. Barker et al., 1888, C. D. 173; 44 O. G. 697, Vilas, Sec.

160. The law requires the clerks of the various courts of the United States to issue subpœnas to secure the attendance of witnesses whose depositions are desired as evidence in contested cases in the Patent Office.

161. After testimony is filed in the office it may be inspected by any party to the case, but it cannot be withdrawn for the purpose of printing. It may be printed by some one specially designated by the office for that purpose, under proper restrictions.

162. Six or more printed copies of the testimony must be furnished—five for the use of the office and one for each of the opposing parties. The preliminary statement required by Rule 110 must be printed as a part of the record. These copies must be filed not less than one week before the day of hearing. They will have wide margins, with the names of the witnesses at the top of the pages over their testimony, and will contain indexes with the names of all witnesses and reference to the pages where their testimony may be found, and also to the pages where copies of papers and documents introduced as exhibits are shown.

When it shall appear, on motion duly made and by satisfactory proof, that a party, by reason of poverty, is unable to print his testimony, such printing will be dispensed with. In such case manuscript copies must be furnished—one for the office and one for each adverse party. Printing of the testimony can not be dispensed with upon the stipulation of the parties to the proceeding.

163. It is desirable that arguments and briefs in all contested cases shall be submitted in printed form and filed before the hearing. If either party fail to comply with this regulation, no extension of time will be granted for the purpose, except upon consent of the adverse parties.
CAVEAT.

CAVEATS.

N.B.—Only the following rules relate to interference proceedings.

198. Any citizen of the United States who has made a new invention or discovery and desires further time to mature the same may, on payment of a fee of ten dollars, file in the Patent Office a caveat setting forth the object and the distinguishing characteristics of the invention, and praying protection of his right until he shall have matured his invention. Such caveat shall be filed in the confidential archives of the office and preserved in secrecy, and shall be operative for the term of one year from the filing thereof.

HISTORY OF RULE.

199 of XXII, XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, XII, like 198 of April 13, 1888.

92. Aug., 1878. Any citizen of the United States, or alien who has resided for one year last past in the United States, and has made oath of his intention to become a citizen thereof, can file a caveat in the secret archives of the Patent Office on the payment of a fee of ten dollars therefor.

201. The caveat must comprise a specification, oath, and when the nature of the case admits of it, a drawing, and, like an application for a patent, must be limited to a single invention or improvement.

HISTORY OF RULE.

199 of XXII, XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, XII, like 201 of April 13, 1888.

92. Aug., 1878, and prior editions, see notes under Rule 205, April 13, 1888.

94. Aug., 1878. No caveat can be filed in the secret archives of the Office unless accompanied by an oath of the caveator that he is a citizen of the United States, or, if he is an alien, that he has resided for one year last past within the United States, and has made oath of his intention to become a citizen thereof; nor unless the applicant also states, under oath, that he believes himself the original and first inventor of the art, machine or improvement set forth in his caveat.

* This provision respecting aliens is repeated in Rule 209 of April 13, 1888, and see notes under Rule 205 of 1888.

† This provision is repeated in Rule 203 of April 13, 1888.
202. The same particularity of description is not required in a caveat as in an application for a patent; but the caveat must set forth the object of the invention and the distinguishing characteristics thereof, and it should be sufficiently precise to enable the office to judge whether there is a probable interference when a subsequent application is filed for a similar invention. If, upon examination, a caveat be found defective in this respect, amendment will be required. Without compliance with Rules 198, 201, 202, and 204, the caveator will not be entitled to the notice provided for in Rule 205.

HISTORY OF RULE.

193 of XXII, XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, XII, like 202 of April 18, 1888, omitting the words "for a similar invention," at the end of the first sentence.

95. Aug., 1878. A caveat need not contain as particular a description of the invention as is requisite in a specification; but still it must set forth the design of the invention and the distinguishing characteristics thereof, and the description should be sufficiently precise to enable the Office to judge whether there is a probable interference when a subsequent application is filed.

95 of X, IX, VIII, like 95 of Aug., 1878.

95. Sept. 1, 1875. A caveat need not contain as particular a description of the invention as is requisite in a specification, but still the description should be sufficiently precise to enable the Office to judge whether there is a probable interference when a subsequent application is filed.

95 of VI, V, IV, III, II, I, like 95 of Sept. 1, 1875.

204. The caveat should be accompanied when practicable by full and accurate drawings, separate from the specification, well executed on tracing muslin or paper that may be folded. (See Rule 51.)

HISTORY OF RULE.

196. March 9, 1887. When practicable, the caveat should be accompanied by full and accurate, etc., (like 204 of April, 1888.)

196 of XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, XII, like 196 of March 9, 1887.

97. Aug., 1878. When practicable, the caveat must be accompanied by full and accurate drawings, separate from the specifications, well executed on tracing muslin or paper that may be folded, and of the same size as demanded in drawings for patents.

97. Aug. 1, 1871. When practicable, the caveat must be accompanied by drawings or sketches.

97 of I, like 97 of Aug. 1, 1871.
CAVEAT.

205. If at any time within one year after the filing or renewal of a caveat another person shall file an application for an invention which would in any manner interfere with the invention set forth in such caveat, and if the invention be found patentable, then such application will be suspended and notice thereof will be sent to the person filing the caveat. If the caveator shall file a complete application within the time prescribed, he will be entitled to an interference with the previous application, for the purpose of proving priority of invention, and obtaining the patent if he be adjudged the prior inventor. The caveator, if he would avail himself of his caveat, must file his application within three months from the expiration of the time regularly required for the transmission to him of the notice deposited in the post-office at Washington. The day on which the time for filing expires will be mentioned in the notice or indorsed thereon.

HISTORY OF RULE.

196. March 9, 1887. If at any time within one year after the filing or renewal of a caveat another person shall file an application with which such caveat should in any manner interfere, and if, within the year, the application shall be found patentable, then such application will be suspended, and notice thereof will be sent to the person filing the caveat, who, if he shall file a complete application within the prescribed time, will be entitled to an interference with the previous application, for the purpose of proving priority of invention, and obtaining the patent, if he be adjudged the prior inventor. The caveator, if he would avail himself of his caveat, must file his application within three months from the expiration of the time regularly required for the transmission to him of the notice deposited in the post-office at Washington; and the day when the time for filing expires will be mentioned in the notice or indorsed thereon.

92 of XXI, XX, XIX, XVIII, XVII, XVI, XV, XIV, XIII, XII, like 196 of March 9, 1887.

92 of Aug., 1878. Any citizen of the United States, or alien who has resided for one year last past in the United States and has made oath to become a citizen thereof, can file a caveat in the secret archives of the Patent Office on the payment of a fee of ten dollars therefor. And if at any time within one year thereafter, another person applies for a patent with which such caveat would in any manner interfere, such application will be suspended, etc., (as in 196 of March 9, 1887,) * * * must file his application within three months from the day on which the notice to him is deposited in the post-office at Washington, adding the regular time for the transmission of the same to him; and the day when the time for filing expires, will be mentioned in the notice or indorsed thereon.

92. July 15, 1870. Any citizen, etc., (like 92 of Aug., 1878,) * * * another person applies for a patent for the same invention, the caveator will
be entitled to notice to file his application and to go into interference with
the applicant for the purpose of proving priority and obtaining the patent
if he succeed. He must file his application within three months, etc.

Caveat:

was pending.
Hildebrand, in re., 1870, C. D. 145.

206. The caveator will not be entitled to notice of any ap-
lication pending at the time of filing his caveat, nor of any
application filed after the expiration of one year from the
date of the filing or renewal thereof.

—— Where the combination was not patentable.

—— Where the combination was wanting in patentability.

—— Where the combination was for an analogous use.

—— Where the subject matter was wanting in invention.

—— Where based on ex parte affidavits.

—Granted where neither of the parties were entitled to make a broad claim, the elastic and ambiguous claims limited to the differing novel device of each.

—Granted where the words of the issue had not the same meaning when applied to A’s device as when applied to B’s.

—Granted where a claim was too broad and indefinite.

—Refused where the claims interfered in fact, though not couched in the same terms.

Motion to dissolve based on statutory bar:

—Allegation of more than two years prior public use and sale made in preliminary statement.

De la Mar v. Sueens & Behrens, 1869, C. D. 94.

—A motion to dissolve based upon identity of subject-matter with another and prior interference between the same parties on which a decision was pending is not an irregularity transmissible to the primary examiner.
Edison & Gilliland v. Phelps, 1887, C. D. 11; 38 O. G. 539.

Interrelation of joint inventors:

—Joint inventors held not joint inventors; interference dissolved.
Crane v. Rogers, 1871, C. D. 230.

—Dissolution refused:

Dissolution in general:

—Primary examiner has no authority to dissolve. his course is to act through the Examiner of Interference.

Rule 126 of 1888.

Suspension of interference to consider statutory bar.

Custom of Commissioner to hear both parties on the ex parte question in order to determine whether or not it should be referred to the primary examiner, stated.

Case suspended and remanded.

Suspended and remanded to consider ex parte affidavits of prior knowledge and use.
Hedges v. Daniels, 1880, C. D. 64; 17 O. G. 394.

Case remanded after final award.

Attention of Commissioner directed to question of novelty, without motion of either party after favorable decision of primary examiner, to whom the case had been remanded.

Case suspended and remanded to determine patentability, where last action had been a rejection.

It is contrary to office practice after part of testimony taken to suspend proceedings to consider questions relating to di-solution. Authorities.

Commissioner's final judgment on priority will not be suspended to await the determination of ex parte questions relating to the application of the successful party and not affecting the rights of the defeated party.

Rule 127 of 1888.

A second interference allowed.

Where the defeated party filed a second application, and showed cause why he should have a rehearing.
Abraham v. Fletcher, 1869 C. D. 50;

Between the same parties, where the subject matter is different.
Refused.

Where a second interference was declared on a new application of one of the parties in view of affidavits of newly discovered evidence held that the decision in the first interference must be followed, so far as it depended upon the same facts as were there proven.

A second interference is not declared for the purpose of permitting a review of the former case under cover of the introduction of new testimony.

Ibid.

A second interference declared without the Commissioner's authorization between the latter application of B and the patent awarded A in the prior interference between them. Dissolve as res adjudicata.

Motion to reopen refused

Where based on evidence of a prior pending caveat held it was not newly discovered evidence.

Where the evidence tendered only to strengthen the decision already rendered.

Where the evidence was not newly discovered and due diligence was wanting.

Merrill & Merrill v. Glidden, 1876, C. D. 243; 10 O. G. 863.

Where based on ex parte proofs.

Where made in order to take additional testimony because the tribunal had misconstrued the issue. The proper remedy is by appeal.

A motion construed to be for a rehearing of a motion of dissolution in view of want of patentability coupled with a motion to reopen, and refused because the combination was patentable.

Allowed.

Where it appeared that the defeated party had a prior outstanding patent showing, but not claiming the issue.

Where made in order to take further testimony to fix conclusively date of invention, though not newly discovered, and reasonable diligence wanting.

Eccard v. Drawbaugh, 1883, C. D. 50; 24 O. G. 301.

Where there were charges of fraudulent testimony.

Créteau v. Hall, Nov. 28, 1890, Mitchell, MS. 2 G. 83.
Motion to vacate judgment.

—Refused, where it was the decision of the Assistant Commissioner signed afterwards as Acting Commissioner by order of a new Commissioner. Held that it could not be reopened except in accordance with rules governing a new trial.
Simpson v. Wright, 1878, C. D. 126; 15 O. G. 293.

—Right to make this motion waived as to certain issues, by failure of party to appeal.

—It is the proper practice as to claims erroneously included in the issue, after final adverse decision on priority and rejection by the Primary Examiner thereon. Booth ex parte (1889, C. D. 242; 49 O. G. 1841,) approved.
Ehrlich ex parte, Nov. 16, 1890, Mitchell, MS. 2 G. 83.

Motion for a rehearing denied.

—Where it was defective for want of certainty in not setting forth the ultimate facts relied upon and also the legal points.

—Because waived by appeal to the Secretary prior to the motion, and because res adjudicata by a former Commissioner.

—Where based upon foreign knowledge, and also because it was res adjudicata and there was no error in the prior decision.

—Where it alleged as the error of law and fact that a model was a reduction to practice. But held that the motion was within the Commissioner’s jurisdiction.

—Where the failure to introduce the testimony of which the party had prior knowledge was due to error of judgment.

—Where the exhibits did not show the invention embodied in the issue. Ibid.

—On a motion to strike out certain testimony as secondary evidence, which motion had been refused. But leave given to urge the matter at final hearing before the Commissioner.
Wiselogel v. Morse, Nov. 10, 1890, Mitchell. MS., 2 G. 83.

Granted:

—Where based upon a caveat as evidence of invention.

—The jurisdiction of the Commissioner to reconsider the decisions of his predecessor and the history of rule 144, considered, in respect to grounds other than that of fraud.
NEW PARTIES—TESTIMONY.

Rule 129 of 1888.

— A motion to make a new party and to amend the declaration denied, where it was res adjudicata and there were no new facts.

— Party omitted by oversight may be reinstated by the office of its own motion, or upon his petition without notice to the other parties.

Rule 130 of 1888.

— A motion for leave to withdraw application and substitute a new one allowed on filing assent of assignees and other parties.

Rule 153 of 1888.

Notice:

— Where on motion to stay an interference, notice had not been given to the opposite party, held that the motion must be dismissed under this rule. The case, however suspended on other grounds.
Fiske ex parte, Oct. 3, 1890, Mitchell. MS., 2 ti. 75.

Rule 159 of 1888.

— Motion to strike out certain secondary evidence the admissibility of which had been affirmed on appeal, refused but leave given to urge the matter at the final hearing before the Commissioner.
Wiselogel v. Morse, Nov. 10, 1890, Mitchell. MS., 2 G. 83.

TRADE-MARKS.

Rule 13, edition of Nov. 1, 1886, now in force.

13. In case of conflicting applications for registration, or in any dispute as to the right to use which may arise between an applicant and a prior registrant, the office will declare an interference, in order that the parties may have opportunity to prove priority of adoption or right; and the proceedings on such interference will follow, as nearly as practicable, the practice in interferences upon applications for patents; but each applicant and registrant will be held to the date of adoption alleged in the statement filed with his application. On the petition of any party dissatisfied with the decision of the examiner of interferences the case will be reviewed by the Commissioner without fee.

12 of edition of July 1, 1881, like 13 of Nov. 1, 1886.

This rule is based upon the final paragraph of Section 3 of the Act of March 3, 1881, as follows: "In an application for registration the Commissioner of Patents shall decide the presumptive lawfulness of claim to the alleged trade mark; and in any dispute between an applicant and a previous registrant, or between applicants, he shall follow, so far as the same may be applicable, the practice of courts of equity of the United States in analogous cases."

The Act previous to this, that of July 8, 1870, Sections 77 to 84 (R. S., §§ 4937–4947), as well as that of Aug. 14, 1876, punishing the counterfeiting of trade marks, was declared unconstitutional in United States v. Steffens (Trade Mark Cases), 100 U. S. (10 Otto), 82. For the Act of Aug. 14, 1876; see also United States v. Koch, 49 O. G. 891.

—Evidence of admissions as to previous use by an applicant.
Sternberger v. Thalheimer, 1873, C. D. 24; 3 O. G. 120.

—Interference in trade mark cases can properly be declared. Practice as in interference cases between applications for patents.

—The issue is, who was the first to put the trade mark into actual practice.

—Issues in trade mark interferences are ownership as well as priority under Rule 80, 1878, R. S., Section 4039.
Hoosier Drill Co. v. Ingels, 1878, C. D. 115; 14 O. G. 785.

—Title considered.
Ibid., 1879, C. D. 75; 15 O. G. 968.
TRADE MARKS.

—R. S., § 4944, does not supersede the necessity of an interference proceeding.
Hoosier Drill Co. v. Ingels, 1878, C. D. 115; 14 O. G. 765.

—Formal award of priority, to whom and when awarded.

—The jurisdiction of the Examiner of Interference in contested trade mark cases is in accordance with law.

—Effect of a concession of priority of adoption, use and right.

—All pending trade mark interference cases dissolved, the Secretary of the Interior having determined that they are not within the province of the Commissioner of Patents, in view of the decision in United States v. Steffens, 100 U. S., 82.

—Trade Mark Act of 1881 elaborately discussed, and the practice thereunder.

—Registrations under the unconstitutional law of 1874 have lost their status of prima facie evidence.

—On a motion to dissolve an interference, registration and assignment under the invalid act of 1874 held no estoppel, and that Rule 13 must be applied.

—Interference dissolved and registration refused, where neither party is entitled to registration.

—Motion to set aside decision of Acting Commissioner granting a rehearing, refused.
Simpson v. Wright, 1878, C. D. 126; 15 O. G. 293.

—Motion to reopen in view of newly discovered evidence, denied.

—Unreasonable notice of taking of depositions. Discharge of attorney.

—Admissibility under stipulation of testimony illegally taken abroad.
